**PENALIZING FOR STRIKERS HOLDS**  
Railroad Legislation Retains Restraining Provision.  
Elmquist Says Washington is Centralizing Power.  
Private Owners Need Recompense for War Costs.  
WASHINGTON, Oct. 14.—Inclusion in the permanent railroad legislation of a provision to penalize strikes of railroad employees was decided upon late today by the Senate Interstate Commerce Committee by a vote of 14 to 1.  
The committee did not enter into details of the anti-strike legislation at its meeting today, the vote being merely on the question of adopting the principle of penalizing railroad employees for striking.  
The committee vote was regarded as making certain inclusion in the final railroad bill of an anti-strike clause somewhat certain, although the clause of the Cummins bill proposing fines and imprisonment for concerted action of employees interfering with interstate commerce. The phraseology of the anti-strike clause is expected to be agreed on late this week.  
OTHER STEPS TAKEN UP.  
Other steps toward reporting out the railroad bill probably this week were taken today by the committee in determining distribution of excess railroad earnings.  
In accordance with a recent vote in favor of a provision directing the Interstate Commerce Commission to fix rates sufficient to insure railroads a return of 5 1/2 per cent. upon the value of their property as determined by the commission, plus one-half of 1 per cent. for maintenance, the committee today voted on disposition of earnings exceeding this 6 per cent. return.  
By a vote of ten to five, the committee decided that of earnings of railroads between 6 and 7 per cent. one-half of 1 per cent. may be retained by individual carriers toward maintenance of individual improvement funds, with the other one-half of 1 per cent. to be transferred by the railroads to the Federal transportation board to constitute a general, national contingent fund. This general fund would be distributed by the board for the maintenance or improvement through loans or otherwise, of other railroads deemed worthy of assistance.  
EXCESS EARNINGS.  
Of excess earnings of railroads over 7 per cent. on net value, the committee decided that one-fourth shall be retained by the earning carriers for their own improvement funds and three-fourths given to the board's general fund.  
The committee also approved a provision that the individual carriers, from excess earnings over 9 per cent. may accumulate reserve funds up to maximum of 5 per cent. of their property value. When 5 per cent. limit is reached and maintained, one-third of further excess earnings may be retained by individual carriers and two-thirds must be transferred to the Federal contingent fund.  
OPPOSES FEDERAL CONTROL.  
INDIANAPOLIS, Oct. 14.—That undue centralization of power in Washington is a menace to the welfare of the people of the United States was the statement made by Charles E. Elmquist, president of the National Association of Railway and Utilities Commissioners, before that body at its session here today.  
At the conclusion of his address, Mr. Elmquist tendered his resignation as general solicitor of the association. He will become connected with a law firm at St. Paul.  
Declaring his faith in the various State commissions, President Elmquist said he believed that "under no circumstances should the Federal government attempt to do a thing which can be better done by the States themselves."  
"The American people have not been convinced that private operation of railroads is a failure," President Elmquist said.  
UNIFICATION NEEDED.  
Enactment of legislation to in-

**WAGES RISE FROM 74 TO 112 PER CENT.**  
[BY A. F. NIGHT WEBER.]  
BOSTON, Oct. 14.—Average wages of men in eight leading industries, as measured by average hourly earnings, increased all the way from 74 per cent to 112 per cent during the period from September, 1914, to March, 1919, according to a report issued today by the national industrial conference board. Increases in weekly earnings of men ranged from 62 per cent to 110 per cent.  
The eight industries included were metal, cotton, wool, silk, boot and shoe, paper, rubber and chemical manufacturing.  
Discussing the various plans for the future operation of the railroads, Mr. Aitchison said there must be a far greater degree of unification and utilization of facilities, terminals, equipment, and before and that future railway construction should be limited to that which is necessary and convenient for governmental purposes and the public. Provisions for the most efficient utilization of equipment after private operation is resumed are important.  
NATIONAL REGULATION.  
The speaker recommended a national regulation body which would have power to prescribe the minimum rates as well as the maximum. This authority, he said, has never been vested in the Interstate Commerce Commission. Also a modification of the present plan of district traffic committee, under the direction of public authority, may be necessary as stabilizing influence, during the readjustment stage following Federal control, to prevent a rate war.  
With the change of the properties and until the corporations have had an opportunity to make their own adjustments it seems reasonable, Mr. Aitchison said, that the government should stand behind unavoidable losses from operation on the ground that to a large extent the increased costs constitute direct cost of the war and should be borne as such.  
NEED PROTECTION.  
Regarding the labor situation, the speaker declared that legislation must be provided to insure a speedy and adequate means of enforcing just demands of employees, but that at the same time the country is entitled to protection against the irretrievable damage which must follow if either party to the dispute insists upon being the final judge of the justice of its own cause and stops the wheels of commerce.  
INVESTOR RIGHTS.  
NEW YORK, Oct. 14.—Claiming that investors in railroad securities are entitled to the assurance that their interests will be scrupulously conserved under government control as they would be under private ownership, an outstanding committee of the Association of Railroad Executives today passed a resolution insisting upon a rise in rates which will restore the relation between revenues and expenses, which, it is alleged, has been disturbed because of the government's action in increasing operating costs.  
A committee was named to confer with Director-General of Railroads in an effort to obtain a rise in rates "on the government's own volition."

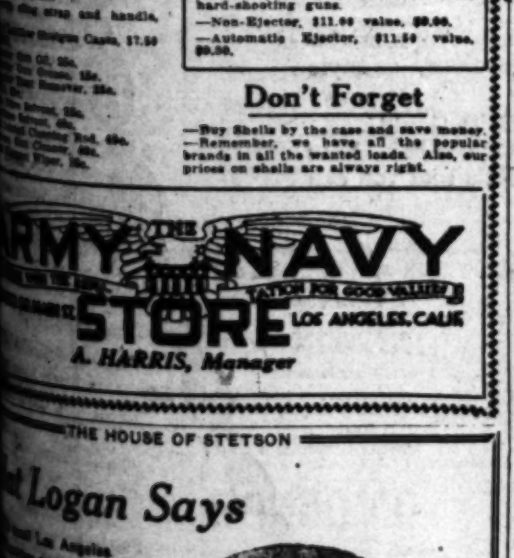

**HASTE IN RAIL RETURN URGED.**  
Efforts to Pass Buck to G.O.P. Seen in Washington.  
Administration Paves Way to Get from Under.  
Freight Rate Adjustment is Refused Owners.  
WASHINGTON, Oct. 14.—The administration is preparing to "pass the buck" to the Republicans in Congress in case the railroads are not returned to their owners on December 31.  
This is the inference drawn by Congressional leaders from the letter from Walker D. Hines, Director-General of Railroads, to Representative Enoch of Wisconsin, chairman of the House Committee on Interstate and Foreign Commerce, and to Senator Cummins of Iowa, chairman of the Senate Committee on Interstate Commerce.  
The letter emphasized the need of haste in passing legislation in order that the railroad companies might make their plans for improvements for next year, and also as a means of maintaining the morale of railroad employees.  
This letter followed closely upon another to the committee of railway executives informing them that any rate increases would have to be initiated by them following the return of the roads.  
The effect of the two letters is said to place the administration on record as doing everything possible to speed the return of the roads to their owners.  
Although President Wilson announced several months ago that he would return the roads on December 31, it is the belief that he will not do so in case legislation has not been passed in the meantime. There seems not the slightest chance that a bill can be passed by more than one house by that time, and it is probable that enactment of any bill will not finally take place before spring.  
The subcommittee of the House committee is making progress in its preparation of a bill and now hopes to make a report to the full committee by the end of the present week. The intention is to report a bill to the House by November 1. No effort will be made to pass it until the December session.

**Public Recitals**  
Come in and hear the HAINES AMPICO reproduce the hand playing of almost any of the world's great pianists, such as Rachmaninoff, Ornstein and Liszt, as vividly that you will imagine the pianist himself performs in person.  

**A Matter of Public Record**  
WHAT the wonderful AMPICO will accomplish in reproducing the exact hand playing of famous artists no longer requires much elaboration—  
—the achievements of the AMPICO are a matter of definite public record, established beyond all dispute by the history-making public recital held at Trinity Auditorium the night of June 5th, when Leopold Godowsky played personally in direct comparison with AMPICO reproductions.  
—this wonderful instrument presented to music lovers in combination with a piano of such tonal perfection as the HAINES—a piano so modestly priced and yet so high in all the attributes of quality—will bring within the range of many more homes the priceless advantages of hearing and studying the renditions of the greatest of living artists.  
—the AMPICO in the HAINES combines with the ideal moderately priced piano the perfect means of musical expression, making possible not only the reproduction of the playing of artists, but permitting one to play by hand or to give individual interpretation to any composition.  
  
**The Ampico**  
May be obtained in the KNABE "The World's Best Piano," as well as in the HAINES and FRANKLIN pianos. Prices range from \$775 up for uprights, and from \$2250 to \$3425 for grands.

**DRY CLEAN ALL FAMILY CLOTHES FOR A FEW CENTS**  
Any woman can clean and renew ribbons, furs, slippers, shawls, belts, coats, dresses, suits, coats, gloves, veils, men's clothes, lace curtains, woollens, rugs, draperies—everything that would be ruined by soap and water.  
Place a gallon or more of gasoline in a dishpan or wash boiler, put in the things to be dry cleaned, then wash them with Solvite Soap. Shortly everything comes out looking like new.  
Nothing fades, shrinks or wrinkles. No pressing needed. Do not attempt to dry clean without Solvite Soap. This gasoline soap is the secret of all dry cleaning.  
A package of Solvite soap containing directions for home dry cleaning costs little at any drug, grocery or department store. Dry clean outdoors or away from flame. [Advertisement.]  
**"KILL-JOYS"**  
Constipation, Headache, Colds, Biliousness ended with "Cascarets"  
Nothing takes the joy out of life quicker than a disordered liver or waste-clogged bowels. Don't stay sick, bilious, headachy, constipated. Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, your breath bad and stomach sour. Why not spend a few cents for a box of Cascarets and enjoy the nicest, gentlest laxative-cathartic you ever experienced? Cascarets never gripe, sicken or inconvenience one like Salts, Oil, Calomel or harsh pills. They work while you sleep. [Advertisement.]

**VON BRINCKEN'S STORY DENIED BY VON SCHACK**  
FORMER VICE-CONSUL IN BAY CITY SAYS ALLEGED AT-TACHE IS ADVENTURER.  
[EXCLUSIVE DISPATCH.]  
LEAVENWORTH, Oct. 14.—Eckhard H. von Schack, former German Vice-Consul at San Francisco, serving a term in the Federal penitentiary on conviction of having taken part in what is termed the Hindu conspiracy to start an uprising in India during the war, is irate over the statements issued recently by Wilhelm von Brincken, accusing him of planning the assassination of prominent men in England and America.  
Von Brincken posed as the German military attaché at San Francisco and was convicted on a conspiracy charge to be sentenced to prison at McNeill's Island. Not long ago Von Brincken made a statement that Von Schack planned to have Charles M. Schwab, Sir Cecil Spring-Rice, former British Ambassador, Lord Fisher and other prominent men killed.  
Von Brincken has prepared a statement on the allegations made by Von Brincken which has been forwarded to Attorney-General Palmer, denying the truth of the charges and scoring Von Brincken. He declares that Von Brincken never was a German military attaché in America and says:  
"Von Brincken is an adventurer without honor or principle who acts according to his monetary interests regardless of former allegiance or of the damage he may do to other persons."  
Von Schack goes on to reason out the improbabilities of the truth of Von Brincken's statements and says they were made by Von Brincken to save himself from being deported to Germany. He says no military attaché was ever required at San Francisco, and if one had been wanted the German government would not have selected a discharged second lieutenant, who was occupied in the last ten years in raising pearls in Santa Clara.  
**Almond Growers' Warehouse Burns.**  
OAKDALE, Oct. 14.—The warehouse of the Oakdale Almond Growers' Association here was destroyed by fire this morning with a loss of \$30,000, fully covered by insurance.

## Has anyone ever really heard from the dead?

What is there anyway to the idea that it is possible for us to communicate with those who have gone? Do the dead communicate with us through tipping tables and ringing bells?

Are you justified in the peculiar suspicion with which you view normally sane and honest people who take spirit readings and manifestations seriously?

Do planchettes and ouija boards tell us the truth?

Margaret Deland, America's greatest woman writer, has made exhaustive researches—and discusses this subject in her sane, thoughtful, interesting manner.

A series of wonderful articles that begin in the November Companion.

### Timely Features

"In Which of the Two Big Parties Will You Enroll?"

Mary Garrett Hay says Republican, but Mrs. George Bass says Democratic. What do you say?

"Back to the Farm"

What a farmer's wife thought of the soldier's sweetheart who would not go back to the farm with him.

"In Europe's Whispering Gallery," by Mrs. Maurice Francis Egan.

You will find out why a cook is more necessary to a diplomat's wife than to you.

"Making Good," by Henrietta F. H. Reid.

America's highest salaried woman executive tells some of the secrets of her amazing success.

"Investing for Independence," by Charles E. Mitchell.

What to do with the dollar you save.

### Good Stories

"An Apple Tree Prima Donna"

Of course it's a love story—told in the delightful style of James Francis Dwyer.

"The Builders," the second installment of Ellen Glasgow's tremendously interesting novel, with a complete synopsis of the first part.

"Lonesome Joe"

A fascinating story full of life, love and laughter—and a bit of pathos—by that great favorite of yours, Constance Skinner.

"D'ye Ken John Peel?"

By Mazo de la Roche. An irresistible story about three rollicking kids. It's the kind of a kid story that appeals especially to grown-ups.

"The Biting Facts"

By Sophie Kerr. In which a seventeen-year-old tries her hand at "reforming" an elderly matron.

### Helpful Departments

"The Habit of Health"

By Dr. William R. P. Emerson. The fourth of this important series on feeding children for health and growth.

"A Formal Dinner"

And How It Should be Served, by Alice Bradley. And there's a new kind of a Thanksgiving pie—and other Thanksgiving suggestions.

"Preventing Influenza"

By Roger H. Dennett, M. D. How to prepare against it. A timely article that should be read in every home in America.

"What Is Your Type?"

By the Fashion Editor. Appropriateness in clothes as necessary as style and fit.

"A Millinery Lesson," by Miss Gould.

How to make and trim your hat. Nine pages of Christmas Gifts that you can make yourself.

These are only a few of the articles, stories and departments that make the November Companion worth more to you than the 20 cents its costs. 154 pages, 6 stories, 12 special features and 33 articles under regular departments—among them 4 pages of good things to

eat, 6 pages devoted to children, 8 to fashions and clothes, 9 to Christmas gifts you can make, and 12 to pictures in color and black-and-white, not counting regular illustrations. Don't go home to-night without this big number of the Companion.

## SERVICE —for business houses

—this Bank invites the accounts of sound business concerns—firms, corporations and individuals—and is prepared to extend not only suitable lines of credit, but also a helpful advisory and developing service—

—for some years we have been quietly extending our "Commercial Department," without bringing its service before the general business public in any widespread way. In fact, business men have often said to us, "I was not aware of the breadth and scope of your commercial service"—when the activities of this Department were brought to their attention—

—intimate acquaintance with Southern California conditions and developments, due to many years' residence and banking experience here, enables our Officers to co-operate most understandingly and helpfully with local business concerns—

—special consideration is given sound enterprises contributing directly to the development of home industries and the upbuilding of Los Angeles—for in these we see an exemplification of that unity of interest toward which all citizens should work—and to which this Bank is unreservedly committed.

### AERIAL CONVENTION REFUSED BY AMERICA.

(BY CABLE AND ASSOCIATED PRESS.)

PARIS, Oct. 14.—The United States did not sign the international aerial convention yesterday, which received the signatures of the representatives of many countries.

The American patent office questioned whether under the agreement the United States courts would have jurisdiction if foreign machines carried devices infringing United States patents. The United States was given six months for further consideration.

The convention regulates licenses for aerial navigation and provides penalties.

New Union Pacific Official.

(BY A. P. NIGHT WIRE.)

OMAHA, Oct. 14.—H. M. Adams, wearing a Distinguished Service Cross for work in Washington during the war as Federal rail traffic director, has arrived in Omaha with the title of vice-president of traffic of the Union Pacific. He will replace J. A. Monroe, who has held the same position for several years and will retire when the railroads are turned over to private ownership January 1.

## WORLD'S LARGEST PAPER. Last Sunday's "Times" Behemoth of Them All in News and Business.

ON SUNDAY, last, October 13, The Times shattered all records in the history of journalism by printing the largest single issue of a newspaper ever offered to the people of the United States or any other country.

The newspaper Colossus of the world. The proud father whose baby tips the scales against all competitors naturally wants to enlarge on the virtues of his exceptional child. The fisherman who lands the largest yellowtail ever caught in Catalina waters certainly desires to dwell on the details of his remarkable feat. Anyone who breaks a record of any description is anxious that his friends, relatives and associates and people generally should hear something about it.

In this spirit, then, The Times feels constrained to talk a little to its large family of readers and circle of patrons on the features of this memorable issue of October 13.

A newspaper, like a human being, consists of three parts—body, mind and spirit. The body is the business end of the enterprise; a very important adjunct, for mind and spirit must have a healthy body through which to express themselves. The mind is the power for collecting and displaying the daily events of interest in the best conceivable order and system. And the spirit of the journal is found in the principles it stands for and the inspiration it affords.

This Sunday edition consisted of 186 pages divided into six large news parts and, in addition, two magazine sections; also a comic sheet and a rotogravure of four pages each.

This tremendous Sunday sheet contained the largest volume of advertising ever printed by any Sunday newspaper on earth, TOTALLING 18,503 INCHES.

The total space occupied by printed matter and cuts was 25,053 inches.

Here are some instructive comparisons in figures, relative to last Sunday's Times and its competitor.

These figures in themselves sufficiently uphold the claim of The Times that it entirely covers the local advertising field. But to make assurance doubly sure we will give the figures for the Sunday Los Angeles Examiner, published on the same date:

Total number separate classified ads, Times ..... 10,124  
Total number classified ads, Examiner ..... 5,124  
Total paid advertising, Times ..... 10,908 inches  
Total paid advertising, Examiner ..... 10,961 inches

Reading matter, Times ..... 6,154 inches  
Reading matter, Examiner ..... 6,154 inches  
Total printed space, Times ..... 25,053 inches  
Total printed space, Examiner ..... 18,503 inches

If all the words printed in this mammoth Sunday edition of The Times were stretched out in one single line they would reach for nearly nine miles. And if all the lines printed in the whole number of circulated copies were similarly treated they would form a bee line to the moon and back and then have a surplus large enough to cover an ordinary issue of the daily Examiner.

Let us take a look at the Farm and Tractor Section, since no one thing is more vital to the whole nation than the study and record of its agricultural progress.

This additional feature to the Sunday Times was started in November, 1917, as a modest eight-page magazine. It immediately "caught on" with all residents of Southern California interested in the land and its products.

The last number, a complete agricultural and horticultural magazine, consisted of reading matter of every kind, from the latest item of up-to-date news connected with "the land," besides many articles of instruction and information on kindred topics. F. H. Scribner, Ernest Brautson, Gillette E. Gordon, H. S. Hoard and George P. Clements are among the many specialists contributing to this last number of the Farm and Tractor Magazine.

The Times Illustrated Magazine, an old-time favorite in the Southland, contains in this last issue four exceptional articles on timely subjects, a strong fiction story, the news women advice by Harry Brook and a literary first page by John S. McGroarty, whose famous Times editorial, "Christ's Gray General," circulated all round the world. These are very few homes in the Southland that consider the Sunday complete without the Illustrated.

The largest section of this great Sunday Times was Part III, variously known as "The Cream Sheet," "Music and Song," "Society" or "Life's Finer Side." This one section consisted of forty-two pages, a larger newspaper in itself than the whole average printed daily in other cities.

Part III touches more intimately the everyday lives of our own kith and kin, and therefore, to preserve a proper news balance, is allotted more space than that given to larger events and more distant issues. The social delights of those we know either personally or vicariously, the latest weddings and engagements and dinners and gatherings, the amusements and pleasures about which people at the present time are chiefly talking, personal stories and amusing anecdotes, all these are popular favorites in music, literature, drama or on the screen, what the "well set" is buying and how it is dressing and entertaining, "who's who" in the passing week and who's likely to be who in the coming show, semibodies, anybody and nobody from the human side—all these are set up piquantly in Part III, which in consequence by many has been considered the feminine section of the Sunday Times.

But this last number III had numerous articles as interesting to masculine as to feminine tastes. For instance, Tom Manton's delightful satire on a New York dinner party must have appealed to all readers. And the illuminating article on hard cider decidedly belongs to the masculine column. Nor could any man read the big things happening in the world today passed over Arno Doeh-Fleur's first-hand exposition of what is actually taking place in Bolshevik Russia. The people's trouble page—the open forum for Times readers—was again a reliable barometer on the trend of public sentiment in Southern California.

Part VI, the Pink Sheet, has grown to sixteen pages, another newspaper in itself. Since Los Angeles owns more automobiles per capita than any city in the world, and since this Part VI covers every possible activity in the automobile field, it is hardly necessary to point out why this section is so popular or why it has grown to such proportions. Let any autoist read carefully this part of last Sunday's Times and he will confess that it comes pretty nearly being a text-book on automobile mechanics.

The sixteen pages in Part I covered the big news of the day, as recorded from the Associated Press, the most comprehensive news agency in the world, through exclusive dispatches and special correspondents. These sixteen pages were further enriched by a feature of unusual significance that took place in the United States and all foreign countries. The Times has five great news services in addition to the Associated Press, in connection with the Chicago Tribune, the New York Times, the New York Herald, the New York Tribune and the London Morning Post.

Part II featured on a larger scale stories that just now are engrossing public attention. On the first page King Albert naturally figured prominently on the news of the day. Mr. Yell threw an entirely new light on our relations with Mexico in his able article on Mexican opportunities for Los Angeles business men. The wonders of Red Rock Canyon, hitherto unknown to residents of Southern California, graphically illustrated in the Rotogravure Section, was another feature that has a permanent appeal to all lovers of the Southland.

Of the editorial page it is not necessary to say much. Wherever the English language is spoken the editorial page of The Times is a household word. For thirty-eight years this journal has stood consistently for the same principles, the same standards in civic government and moral conduct.

Every fresh editorial sheet has been another chapter in the same story. Individual liberty under the law, American democracy and Christian ideals of life have always been and still are the impelling force behind The Times editorials, and as such they have permeated all the varying issues that have gone to make up this mammoth Sunday edition, since what is in the soul must inevitably come out in the mind and body.

## REDS' ARMY PLOT DENIED.

Gary Commander Says no Programme of Destruction Has Been Discovered.

(BY A. P. NIGHT WIRE.)

CHICAGO, Oct. 14.—Military authorities today continued their investigation into alleged radical activities in connection with the strike of steel workers at Gary, Ind., and questioned several men, including Anton Gorki, who is said to be under surveillance in connection with the explosion of a bomb in the Chicago postoffice in September, 1918.

Reports of discovery of a widespread plot against military and naval installations were denied tonight by Col. W. S. Mape, commanding the Federal troops at Gary. Reports that troops were being sent from the Gary district to protect government property in various parts of the country were also denied by Col. Mape.

Mal. Gen. Leonard Wood, commanding the Central Department of the United States Army, was in conference with Col. W. S. Mape, commander of the troops at Gary, today. Severe measures to combat the "red" plot are being followed by the military authorities.

The strike bulletins issued by the workers today disavowed the proclamation issued yesterday by the "communist party of America," calling on the workmen to establish a dictatorship and wrest control of Gary from the Federal troops.

GUARD OFFICIALS.  
(BY A. P. NIGHT WIRE.)

NEW YORK, Oct. 14.—Heavy police guards were placed today within and about the criminal courts building where two alleged anarchists are on trial following the discovery last yesterday, of highly incendiary circulars threatening the lives of Supreme Court Justice Weeks, Assistant District Attorney Rorke and Detective-Sergeant Gahan. Outside the hall were gathered fully 1000 men unable to gain admittance. They became so unruly that it was necessary to call police reserves.

## EFFORT TO HALT MINERS' STRIKE.

Secretary Wilson to Confer with Unions' Leader.

Operators Have Agreed to be Represented at Session.

Claim Made that Meeting in Buffalo was Failure.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Oct. 14.—In an effort to avert the threatened nationwide strike of bituminous coal miners, Secretary Wilson of the Labor Department will invite John L. Lewis, acting president of the United Mine Workers of America, and John E. Sawyer, representing the operators, to confer with him here, probably Thursday.

INDIANAPOLIS, Oct. 14.—John L. Lewis, acting president of the United Mine Workers of America, who returned to the union headquarters today from the joint wage conference with the mine operators, which failed to reach an agreement at Philadelphia, said tonight he would consider the invitation of Secretary of Labor Wilson to meet with him in Washington Thursday until tomorrow before making a reply. Meanwhile the work of drafting the order calling all bituminous coal miners to go on strike November 1 was being continued at the union headquarters here, it was said.

Mr. Lewis received the message from Secretary Wilson late today. It follows:

WILSON'S APPEAL.

"Section eight of the law creating the Department of Labor provides that the Secretary of Labor shall have the power to act as a mediator and to appoint commissioners of conciliation in labor disputes wherever in his judgment the interests of industrial peace may require it to be done."

"I have been much disturbed by the reports to the effect that the operators and miners have failed to reach an agreement and have adjourned without making arrangements for further conference and that a strike is therefore likely to take place in the bituminous coal fields of the United States on the first day of November."

"As the executive of the government I am intrusted with the responsibility of mediation I would like to have you meet me in the office of the Secretary of Labor in Washington at 11 o'clock Thursday morning, October 16, for the purpose of considering the situation as it exists in the bituminous coal fields. I would respectfully request that no strike order be issued until after I have had an opportunity of a conference with you. I have also asked Mr. Brewster, President of the Coal Operators' Association, to meet me at the same time and place."

ALLEGED UNFAIRNESS.

"The statement declares that the operators 'brushed aside the propositions as so much chaff' and that 'the only thing the operators proposed to the miners in the conference was that the Washington wage agreement be continued in force until March 31, 1935.' The miners were forced to reject this proposal, it is stated, because they could not make a living under the Washington agreement."

Figures are quoted to show that the highest average was received by miners in the central competitive field was \$1.45, and that was paid the Ohio miners, while a recent bulletin from the Bureau of Statistics of the Department of Labor is cited as the authority for the statement that the average American family of four requires an income of \$1840 a year in order to maintain a decent standard of living.

The miners assert that the Washington wage agreement terminated with the ending of the war, and that the making of a new contract at this time "is not a matter of choice, but necessity."

All blame for the breaking off of the wage conference between the bituminous coal miners and operators of the central competitive field was placed on the coal operators in a lengthy statement of the miners' position issued today at the headquarters of the United Mine Workers of America. The joint wage conference met in Buffalo and Philadelphia.

## LONDON LAUGHS AT MRS. WILSON'S SLIP.

(EXCLUSIVE DISPATCH.)

WASHINGTON, Oct. 14.—In the hemmed list of gifts given to President Wilson and Mrs. Wilson abroad, made public recently by Mr. Tamm, is at "the express direction of the President and Mrs. Wilson," appeared the following:

"In addition to the gifts received by the President, the following tokens were presented to Mrs. Wilson while she was in Europe: 'The Wolf and Romulus and Remus' in gold, presented by the people through private subscription."

In this connection the following taken from "Fragments," edited in London by Capt. Bruce Bairnsfather (July 12, 1919) is of interest:

"All Paris is asking who the lady was, who, when presented a few days ago in Rome a gold medal of the She Wolf suckling Romulus and Remus, expressed her thanks, saying:

"It moves me deeply to accept this magnificent work of art, the symbol of eternal love—Romulus and Juliet."

"And who was the Ambassador who coughed so violently that the audience could not hear what followed?"

Asks \$20,000,000 to Train Wounded.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Oct. 14.—Secretary Glass recommended to Congress today an appropriation of \$20,000,000 to enable the Federal board for vocational training to carry out the purposes of the vocational training act.

## OVER 2300 TRUST COMPANIES IN THE U.S.

—guarding  
valued at  
five billion  
dollars.

It is estimated that in their capacity as Trustee under corporate mortgages, as registrar, transfer and crowd agents, the trust companies of the United States guard wealth valued at more than thirty-five billion dollars.

This is substantial evidence of corporate responsibility has proved to be superior to personal responsibility.

The first trust company was organized in 1822—and it is still doing business in New York.

Title Insurance and Trust Company is the oldest trust company in the Southwest.

If you want dependable, reliable service—you can get it from this institution.

## WAR TROPHIES GIFT TO CITY.

France Presents Carload of  
German Relics to Los  
Angeles, Pasadena.

A carload of war trophies is  
to be divided between Los  
Angeles and Pasadena in re-  
cognition of their services dur-  
ing the war, according to the  
word received here yesterday  
from L. N. Brunswig of this  
city, who has been several  
months in France. Mr. Brunswig  
was the active head of the  
trophies were procured as a  
result of his conspicuous  
services.

The relics were captured  
from the Germans and were  
given to the two Southern  
California cities by the French  
military authorities. This cap-  
tured material was sent to the  
United States export ordinance  
office at Saint Nazaire, France,  
whence it is to be forwarded  
to New York by transport.

The shipment consists of sev-  
eral 7's and 10's, trench  
mortars, mine throwers, ma-  
chine guns, sabers, guns, saw-  
tooth bayonets, helmets, gren-  
ade throwers and a great  
number of smaller articles.

Mr. Brunswig expects to  
arrive in Los Angeles the lat-  
ter part of October.

## SEIZE MUNRO'S LOVE LETTERS.

Girl's Counsel to Read Zinc  
Magnet's Mash Notes.

Fair Defendant on Stand in  
Wife's Lost-Love Suit.

Reveals Intimate Details of  
Her Sordid Romance.

A bundle of love notes from  
Charles W. S. Munro to Miss Clara  
Eunice Barker, defendant in the  
\$50,000 lost-love suit of the for-  
mer wife, Mrs. Grace Munro, on  
trial before a jury in Judge Mun-  
roe's court, was seized yesterday  
on behalf of Miss Barker's counsel  
and will be read in court today.

Miss Barker, some time ago,  
secreted the letters in the attic of  
the home she occupied at Glendale.  
The Munros, a wealthy Trenton,  
N. J., shoe manufacturer, told Miss  
Barker he had destroyed all his let-  
ters, as well as her own. On the  
first day of the trial, Attorney Na-  
than Newby, counsel for Mrs.  
Munro, produced seventy-one love  
letters Miss Barker had sent to Mr.  
Munro, and read them to the jury.

Yesterday Miss Barker remem-  
bered the bundle of Mr. Munro's  
love notes in the attic of the Glen-  
dale home. Although the house is  
now occupied by other people, At-  
torney Byron Hanna instituted a  
claim and delivery suit and sent  
Miss Barker with Constable Hayes  
to the bungalow. She took the  
constable into the attic, hunted  
around in the gloom and discovered  
the letters where she had hidden  
them. The jury will hear  
them today.

DEFENDANT TESTIFIES.  
Yesterday afternoon Miss Barker  
took the stand to bare the sordid  
romance that she said ruined her  
young life. She told of meeting  
Mr. Munro through an accident and  
how he courted and deceived her  
under an assumed name, posing as  
a single man. She also told how a  
brown automobile led to her dis-  
covery that he was the rich shoe  
manufacturer and not a secret ser-  
vice detective, as he represented to  
her. And she described the agony of  
soul she suffered at the disclosure  
of her dreams.

"I met him at the corner of Mont-  
gomery and Front streets, Trenton,"  
she said. "I was working in a Tren-  
ton pottery and was on my way to  
the postoffice to mail letters for the  
pottery. A big automobile nearly  
struck me. The driver stopped. I  
was able to reach San Bernardino  
before the elderly woman's death  
last night."

Mrs. Bledsoe was a native of San  
Bernardino, and was one of the  
oldest living persons born in that city.  
Before her marriage she was Miss  
Althea Bottoms. She was married  
to Robert Bledsoe, by her husband, Robert  
E. Bledsoe, a well-known attorney  
at San Bernardino, and by a  
daughter, Miss Ruby Bledsoe. Mrs.  
Bledsoe has been an invalid for the  
past five years. Last Friday she  
suffered a fall, and this hastened  
her illness, which caused her death.

LIVINGSTONS MUST PAY.  
Brother-in-law of Draft Evaders  
Wins Suit for Services.

J. W. Schultz, who sued his  
mother-in-law, Mrs. Mathilde Liv-  
ingston, his brother-in-law, Ben and  
Robert Livingston, and his sister-  
in-law to recover for services he  
claimed he performed for Ben and  
Robert at the time they were  
charged with draft evasion, obtained  
judgment by a decision of Judge  
Avery yesterday. His claim was fought  
by the defendants. The court will fix  
the amount later.

BACK FROM SERVICE.  
Raymond S. Taylor, formerly an  
attorney in the offices of W. J. Ford,  
has opened offices in suite 222, Cit-  
izens' National Bank Building. Mr.  
Taylor spent eighteen months with  
the Naval Flying Corps during the  
war, and returned to the practice of  
law only a few days ago.

FIRE, POLICE UNIONS BANNED.  
By unanimous vote of all nine of the Councilmen, the City  
Council yesterday adopted a resolution introduced by Councilman  
Fleming, and seconded by Councilman Criswell, declaring that it is  
contrary to public policy for city employees to affiliate with the  
American Federation of Labor, or any other organization which  
effectively affected an organization some months ago under a charter  
granted by the American Federation of Labor and that the mem-  
bers of the city police department have recently effected such an  
organization.

WHEREAS, the City Council recognizes the right of every city  
employee to become a member of any organization—social, political,  
industrial, fraternal or religious—which they may wish to  
join, provided such membership does not interfere with their duties;  
now, therefore, be it

Resolved that the City Council believes that it is contrary to  
public policy for city employees to affiliate with any organization  
which requires an obligation of fealty to the organization which  
would be greater than the duty they owe the city."

Chief but Silent Witness Against Physician's Slayer.

Deputy Sheriff Lips (left) is holding the powder-burned collar of Dr. Roberts, and Anderson the gun used by Stokes to kill the doctor. On the right is the gallon can of distillate found near the scene. The clothing consists of the oil-soaked garments Dr. Roberts was wearing. Below is what remains of the burned automobile.

## MOTHER OF JUDGE BLEDSOE IS TAKEN.

PIONEER OF SAN BERNARDINO  
DIES IN THAT CITY AFTER  
ONE DAY'S ILLNESS.

Mrs. Althea Bledsoe, mother of  
Federal Judge Benjamin F. Bledsoe,  
died last evening at San Bernardino  
of acute pneumonia, which developed  
less than twenty-four hours before  
her death. Neither Judge Bledsoe,  
who is residing in the Williams  
trial, at San Diego, nor Mrs. Bledsoe  
before the elderly woman's death  
last night.

Mrs. Bledsoe was a native of San  
Bernardino, and was one of the  
oldest living persons born in that city.  
Before her marriage she was Miss  
Althea Bottoms. She was married  
to Robert Bledsoe, by her husband, Robert  
E. Bledsoe, a well-known attorney  
at San Bernardino, and by a  
daughter, Miss Ruby Bledsoe. Mrs.  
Bledsoe has been an invalid for the  
past five years. Last Friday she  
suffered a fall, and this hastened  
her illness, which caused her death.

LIVINGSTONS MUST PAY.

## WRITES WILL ON WEDDING CARD.

Relatives in Ireland Fight for  
Estate Bequeathed to  
Woman's Niece.

A jury in Judge Myers's  
court yesterday, was called to  
try a contest involving the  
validity of a will written by  
Mary Regan, who left an es-  
tate valued at \$8539. The will  
was written on the back of a  
wedding invitation, and under  
its terms the estate was  
bequeathed to a niece, Annie  
Curley. The other heirs, John  
and James Regan, brothers,  
who live in Ireland, contest-  
ed the probate of the will.  
They alleged that the deceased  
was of unsound mind and was  
unduly influenced in executing  
the will by Mrs. Curley. The  
case will be resumed today.

FOR THIRD TRIAL.  
Henderson, Alleged Briber, Must  
Face Another Jury.

George Henderson, negro politi-  
cian, accused of offering and  
giving a bribe for alleged police  
protection, will be tried a third  
time, according to an announcement  
yesterday by Acting District At-  
torney Doran.

Henderson was first convicted and  
was granted a new trial on the  
ground that testimony against him  
was mostly that of accomplices. Mr.  
Doran said the decision to try  
Henderson again was made as the  
result of the outcome of the recent  
trial before Judge Houser, when the  
jury was reported as eight for con-  
viction and four for acquittal.

LOVES HER STILL.  
At Least Husband So Wrote Her.  
Wife Says in Divorce Suit.

Mrs. Ruth Meek wanted a home,  
but she declined in divorce proceed-  
ings in Judge Shedd's court yester-  
day that her husband, a Texas  
produce merchant, forced her to  
live in hotels and boarding-houses.  
While living with her husband,  
Mrs. Meek testified, she was forced  
to move three or four times a year.  
She says her husband told her he  
could not make any money while  
living with her and suggested that  
they separate, saying he would send  
for her later. Mrs. Meek came to  
California, and is supporting her-  
self as a book-keeper.

Mr. Meek wrote his wife, saying:  
"It is hard to give you up, for I  
love you more than anything that  
lives. That is the reason I will  
have a word to say."

The court granted Mrs. Meek a  
decree and alimony of \$50 a month.

## STOKES EVADES CHARGE HE CONFESSED FALSELY.

Confronted with Victim's Oil-Soaked  
Clothes, Distillate Can and Powder  
Burns, He Declines to Answer.

Capt. Charles L. Stokes, confessed slayer of Dr. E. E. Rob-  
erts, was confronted at the County Jail yesterday with strong  
evidence that his story of the killing is untrue. This consists in  
the facts that the examination of Dr. Roberts' clothing showed  
that it was soaked with distillate, that a gallon can containing this  
petroleum product was found in the grass or bushes near the spot  
where Dr. Roberts' car was found and that the back of the vic-  
tim's collar showed powder burns. "You told us nothing about  
the distillate," said Deputy Sheriff Lips to Capt. Stokes. "How  
did it happen that Dr. Roberts' clothing was soaked with this oil?"

"I must refer you to my attorney," said Capt. Stokes to the deputy  
sheriff. Heretofore, the former army officer talked freely of the case to  
the officers.

The prosecution considers the discovery of the oil-soaked garments  
the most important evidence which has so far come to light to shake  
Capt. Stokes' narrative of why and how he shot and killed Dr. Roberts.  
The powder-burned collar indicates Dr. Roberts was shot at close range  
while running, as Stokes said.

"I told Capt. Stokes today," said  
Deputy Sheriff Lips, that in view of  
the oil-soaked clothing as well as  
other evidence we have, that his  
story did not ring true. Stokes may  
have lost Dr. Roberts into insensibil-  
ity in the car, and then driven the  
machine far off the side of the road  
to the spot where it was found. Then  
let us suppose Capt. Stokes poured  
the distillate or oil over Dr. Roberts'  
clothing and set fire to the car, for it  
is extremely unlikely that a machine  
standing still would catch fire, unless  
the engine were running. As con-  
cealment was desired, it is not likely  
the engine was running. Dr. Roberts  
recovered consciousness, on account  
of the fire—and we believe the burns  
on his back were due to the blazing  
distillate—and crawled into the open  
where he was shot from close be-  
hind, by Capt. Stokes. Whether or  
not this is a true version of the  
tragedy we could not learn from  
Capt. Stokes, who declined to talk  
further.

WHAT AUTOBODY SHOWS.  
The killing was accomplished by  
an inexpensive 38-caliber revolver,  
which the police call "a suicide  
gun," the kind, the officers say, a  
person contemplating suicide buys  
in a pawnshop. It had been origi-  
nally painted blue, but the paint had  
worn off. Dr. A. F. Wagner's  
autopsy on the body yesterday  
brought to light three bullets from  
this revolver—two lodged in the  
brain and one which had passed  
through the skull but stopped just  
before it entered the brain tract.  
While it was found that the skull had  
not been fractured by the bullet,  
which Capt. Stokes says he ad-  
ministered to Dr. Roberts in the ma-  
chine, the examination did show that  
Dr. Roberts had received a terrible  
blow, sufficient to cause uncon-  
sciousness.

An interesting development in the  
case was the discovery yesterday

that Mrs. Josephine Stokes, wife of  
the prisoner, had called at 1:45  
o'clock Saturday morning at the un-  
der-taking rooms of Farris at Tenth  
and Figueroa streets, accompanied  
by a Mr. Duffy, where she asked to  
see Dr. Roberts' body. Her re-  
quest was granted, though she did  
not tell the attendants who she was.  
After a few moments, Mr. Duffy  
asked Mrs. Stokes to leave, but she  
remained still longer, saying, "I want  
to see." She appeared almost near  
to a collapse. Later in the morning  
she paid her first visit to her hus-  
band at the jail. She again called  
at the undertaking rooms on Sunday  
morning, but by that time the body  
had been removed to the undertak-  
ing rooms of Fred J. Finch at Saw-  
telle.

INQUEST TODAY.  
Coroner Hartwell will hold an in-  
quest there at 10 o'clock this morn-  
ing. Among the witnesses summoned  
yesterday were F. J. Marcoux, the  
undertaker who first removed the  
body from the place where it was  
found to the undertaking rooms of  
Farris & Co.; Officers W. M. Little,  
J. J. Moran and C. A. Hill; Deputy  
Sheriffs Bright and Johnson, who  
arrived at the scene after Stokes had  
telephoned that he had killed Dr.  
Roberts; Charles Dunkelberger, Mrs.  
Stokes' brother, who was present at  
the family conference at which the  
Dunkelbergers warned Dr. Roberts  
to stay away from Mrs. Stokes, and  
was also at home when Capt. Stokes  
telephoned that he had killed Dr.  
Roberts; and Surgeon Vanden, who  
performed the autopsy. Capt.  
Stokes will be brought from the  
County Jail, and will be represented  
at the inquest by his attorney, Le-  
Compte Davis. Mrs. Stokes is ex-  
pected to be present, but a formal  
summons for her to appear as a wit-  
ness was not made out yesterday,  
and it was considered unlikely that  
she would testify, having no intimate  
knowledge of the killing itself.

# DUCK DINNERS FOR SUCCESSFUL HUNTERS

## SEASONAL SUGGESTIONS FOR PREPARING GAME.

### MEATS AND RECIPES FOR GAME DINNERS WHICH ARE GOOD ANY TIME.

The duck season opens tomorrow and it is evident that some of our readers have the foresight to want to be prepared for that exciting moment when the man of the house appears with a bunch of ducks, waves them triumphantly and announces that he's just invited half a dozen friends over for a duck dinner.

Regarding this, one of our Alhambra subscribers writes:

"I want to thank you for the many helpful suggestions found on your pages every Wednesday morning. Now that the game season is nearly upon us I would appreciate it if you would publish some recipes on how to prepare and cook it in appetizing ways."

Very often we have game offered us and then my husband likes to bring home a mess of ducks, quail or rabbits. I would also like to know how to cook jackrabbit.

MRS. DAVID J. McCracken,  
5435 2nd Avenue, Alhambra.

It is usually the most disagreeable feature of a game dinner, but if the accompanying directions are followed it will not be at all difficult.

Ducks and other game should be picked dry until all the feathers are removed except the very soft down, then pour on hot water. This will swell the feet and the down can easily be rubbed off with the palm of the hand. Wipe dry and singe over burning paper to remove the hair. If you feel that game is a bit stale when received, soak a few hours in charcoal water or soda water. This will sweeten the game.

There is nothing so repulsive to most people as underdone game and poultry. Be sure that no matter how it is cooked it is well done.

Nearly all wild ducks are liable to have a fishy flavor and sometimes are almost unpalatable from this cause. An experienced cook advises that before roasting them they should be parboiled with a small amount of water. This will absorb the unpleasant taste. An onion will have the same effect, but usually you mean to use onion in the stuffing the carrot is preferable.

**ROAST WILD DUCK.**  
Parboil according to suggestion given above, throw away the carrot or onion, lay in fresh water half an hour. Stuff with bread crumbs seasoned with pepper, salt, sage and onion and roast until brown and tender, basting for half the time with butter and water, then with the drippings, add to the gravy when

you have taken up the ducks, a teaspoonful of currant or guava jelly and a pinch of cayenne thickened with browned flour and serve.

**BROILED QUAIL.**  
Remove the feathers without scalding and dress the quail carefully. Then soak a short time in salt water. Split down the back, dry with a cloth, rub them over with butter, place in the broiler of a gas oven or on a gridiron over a clear fire. Turn frequently, putting bits of butter over them, when removing from the fire season with salt. Have ready slices of toast, buttered and laid on a hot dish for each bird. Garnish with guava jelly.

If you are fond of oil, quail are very good rolled in oil and broiled. When broiled this way they should be garnished with watercress and lemon.

**ROAST QUAIL.**  
Prepare the birds above, but do not split. Rub a little butter over them, tie a strip of bacon over the breast and set them in a moderate oven for twenty to twenty-five minutes.

**POTTED QUAIL.**  
Clean and wash quickly six fat quail, season with salt. Place in a large frying pan one cupful of lard, one-half cupful of butter. When smoking hot add the quail, turning quickly. When seared on both sides let cook very slowly until they are light brown all over. Then add one cupful of boiling water and continue simmering until done. Place the giblets in a saucepan, cover with cold water, add a little salt and one onion, boil until tender and chop fine. Remove the quail from the pan and lay on slices of hot buttered toast. Mix one-half tablespoonful of corn starch with one-fourth cupful of cold water, stir in the gravy the quail were cooked in, add the giblet sauce and cook until thickens, pour over the quail and serve piping hot.

**RABBIT FRICASSEE.**  
Skin and clean carefully. Open down the breast, let it lie a couple of hours in a pan of cold water. Wipe dry, place in pan containing a good-sized lump of butter, season with salt and pepper, dredge with flour, pour in enough hot water to keep from burning, bake half an hour, basting occasionally.

**RABBIT STEW.**  
Take a couple of rabbits, divide into quarters, flour them well and fry in hot butter or lard. Then put them in a stew pan with boiling water, season with pepper and salt and, if you care for it, a bit of bay leaf, or some slices of green pepper. Cover closely, simmer until tender. Take the rabbit out in a deep dish, thicken the gravy with flour and butter and pour over the meat.

**BROILED SQUIRREL.**  
Skin the squirrel, lay them in salt water for a couple of hours. Remove the heads and feet and broil whole. Season with salt, pepper and butter, serve with currant or guava jelly.

**ROAST MALLARD DUCK.**  
Stuff prepared and cleaned mallard ducks with equal parts of chopped apples, boiled onions and bread crumbs, seasoning with salt, pepper and sage, and moistening with melted butter. Stuff the ducks sew up and truss. Place in the roaster, dredge with salt, pepper and flour and cover with thin slices of pork. Cook for one hour in a very hot oven, then add a cupful of boiling water and cook more slowly, basting frequently. Make a gravy of the drippings and add to it stoned and chopped and parboiled onions.

**DUCK DINNER.**  
A subscriber in Manhattan Beach asks for a menu for a duck dinner. Any one of these three would be just as appetizing at Manhattan Beach as they were at the Hotel St. Francis:

**Consomme.**  
Ripe California olives.  
Roast duck with currant jelly.  
Fried hominy.  
Asparagus Hollandaise.  
Ice cream cake.

**Coffee.**  
Philadelphia pepper pot.  
Celery.  
Hollandaise potatoes.  
Roast duck with currant jelly.  
Summer squash in butter.  
Vanilla ice cream and wafers.  
Coffee.

To prepare the Philadelphia pepper pot: Simmer in kettle four large onions chopped fine, one stalk of celery, two cups of green pepper cut in very small squares and quarter of a pound of butter. When tender, add two soup spoonfuls of flour and simmer again. Add two quarts of stock, two pounds of tripe and one pound of potatoes cut in small squares, salt and a soup bouquet. Cook for two hours, simmering slowly. Before serving, remove the soup bouquet, add a tablespoonful of pepper, a little chopped parsley and flour dumplings. Let the flour dumplings dough run through an ordinary strainer into boiling water and boil for just a minute.

**Purée of beans.**  
Roast duck.  
Fried hominy and currant jelly.  
Cold asparagus with mustard sauce.  
Baba au rhum.  
Coffee.

Any kind of individual cup cakes may be served with the coffee, but if you desire to prepare the same kind served at the St. Francis here is the recipe for

**BABA AU RHUM.**  
One-half pound of flour, one ounce of yeast, three ounces of butter, two ounces of sugar, two ounces of currants and the rind and juice of one lemon. Dissolve the yeast in one cup of warm milk and make a soft sponge with half of the flour, cover and let rise in a warm place. Work the sugar and butter together until creamy, add the eggs and lemon and the rest of the flour. When the sponge has risen to twice its original size mix with the batter, at the same time adding the currants. Fill moulds half full and let raise nearly to the edge of the moulds. Bake in a rather hot oven. When done soak well in a syrup made with one pint of water, one pound of sugar, one egg of rum and the juice of a lemon. Pour some of this sauce over when serving.

**COMMON KEROSENE THE MAGIC CLEANSER.**  
THE MANY WAYS IN WHICH HOUSEKEEPERS CAN UTILIZE IT TO ADVANTAGE.

It is doubtful if there is any other household cleanser for which so many uses can be found as kerosene, and a bottle of it should be kept in every sink and bathroom.

It quickly removes all roughness, "high-water marks" and discolorations from bathtubs and lavatories. To clean porcelain sinks, bathtubs and washbowls, use a soft cloth moistened in kerosene, wiping dry with another soft cloth.

In cleaning enameled surfaces, a little kerosene should be used in warm water. Immediate drying with a soft cloth is necessary. If ladies stained, a little ammonia can be used instead of kerosene, but the ammonia should be

**ROASTED CANYASBACK DUCK.**  
Prepare and clean the duck, but do not wash it until absolutely necessary. Rub with kerosene. Roasting for half an hour in a hot oven, seasoning with pepper and salt. Baste with butter and water. Season the gravy with cayenne, thicken with browned flour and add to it a tablespoonful of currant jelly.

A typically Californian sauce to serve with the above is orange sauce for roast duck:

Fry together a tablespoonful each of chopped basil, mint and parsley, the juice of an orange, a wineglassful of port wine, drippings from the duck and salt and pepper to season. Keep the sauce hot without boiling and serve separately with the duck.

**STEWED WILD DUCKS.**  
Clean and cut the ducks into joints, pepper, salt and flour them. Fry in butter in a stewpan. Then cover with a gravy made of the giblets and some bits of lean veal, if at hand, all minced and stewed in water until tender. Add a minced onion, a bunch of sweet herbs, salt and pepper. Cover closely and let simmer for one hour. Skim out the duck, add a cupful of milk and a beaten egg. Thicken with browned flour and let boil up once, then pour over the ducks. The juice of a lemon may be added or lemon may be sliced and served on the ducks.

**FRIED DUCK.**  
Clean and cut into joints, roll each piece in flour that has been salted and peppered. Let set half an hour and dredge with flour again. Have butter or lard smoking hot in skillet. Put in the duck, searing quickly and turning. Fry slowly for fifteen minutes, then put in moderate oven and finish cooking very slowly.

**DUCK WITH VEGETABLES.**  
Stuff a prepared and cleaned duck with prunes and parsnips, cored and quartered apples. Surround with carrots, turnips and potatoes cut in large pieces, dredge with flour and put enough water in the bottom of the pan to keep them from burning. Roast, basting frequently. Serve with a border of the vegetables. Strain and skim the drippings and thicken with browned flour.

It isn't likely that there will often be any duck left over from a game dinner, but should there be you can make a delicious left-over dish by serving:

**WILD DUCK WITH JELLY SAUCE.**  
Cut pieces of cold, cooked wild duck in thin slices and reheat slowly in a sauce made of a heaping tablespoonful of butter, half a glass of currant jelly and one wineglassful of port (or grape juice). Another way to serve leftover duck is

**CREAMED DUCK.**  
Put in a saucepan one-half cupful of gravy, half a dozen stoned olives, two tablespoonfuls of tomato catsup, two tablespoonfuls of grape or currant jelly, one tablespoonful of butter creamed with a scant teaspoonful of cornstarch, salt, pepper and cayenne to season. Cook until thickening, consistency. Add cold cooked duck cut into small pieces, reheat and serve at once.

**PROTESTS POULTRY STORAGE BILL.**  
Los Angeles merchants are very much concerned over the provisions in the cold storage bill, now before Congress, that no undrawn poultry shall be stored. The Young's Market Company has wired a protest to Senator Cummings, in which they state that every poultry dealer and packer knows that the goods they will not keep and that to keep this provision in the bill will result in disaster to the poultry industry as a whole. These make good sense, as poultry is a commodity which is produced very abundantly for a few months in the year only and during the period of overproduction the stock is not taken in and properly stored there will be no way of satisfying the demands of the consumers during the period of scarcity, so that the law as it now stands would benefit neither the producer nor the consumer.

**REFUSES EXTRADITION.**  
Governor Won't Send Chicago Woman and Step-Son Back for Trial.

Chicago police will not be able to take Mrs. Minerva Jane Buchanan and Alfred Gordon Buchanan, her step-son, back to that city for trial on a charge of stealing a trunk. It was learned yesterday by John L. Richardson, the attorney who represented the state in the trial, that the Governor had refused to issue a warrant of rendition, giving the consent of the State of Illinois the right to take the mother and son to Chicago for trial.

The charge against Mrs. Buchanan was that she stole a trunk belonging to her husband, A. G. Buchanan, the complaining witness. Her step-son was first charged with passing a fictitious check, but this charge was dropped and he was accused of being an accomplice in the alleged trunk theft.

The Buchanans were released on their own recognizances by Judge Craig, who has under submission the granting of a writ of habeas corpus in their behalf. A fugitive warrant was also sworn out against them. Hearing on this is set for an early date in Justice Palmer's court.

**BIDS ON PROPERTY.**  
Councilman Conaway notified the City Council yesterday that in accordance with the provisions of the ordinance on which there were delinquent assessments for the improvement of Del Mar avenue.

**Coffee sometimes finds one in very tender places.**  
When you feel the jabs, change to

**INSTANT POSTUM**  
"There's a Reason"

It is doubtful if there is any other household cleanser for which so many uses can be found as kerosene, and a bottle of it should be kept in every sink and bathroom.

It quickly removes all roughness, "high-water marks" and discolorations from bathtubs and lavatories. To clean porcelain sinks, bathtubs and washbowls, use a soft cloth moistened in kerosene, wiping dry with another soft cloth.

In cleaning enameled surfaces, a little kerosene should be used in warm water. Immediate drying with a soft cloth is necessary. If ladies stained, a little ammonia can be used instead of kerosene, but the ammonia should be

thoroughly rinsed off or the enamel will be removed along with the stain.

Substitute kerosene for soap in cleaning varnished floors. Use the liquid in the proportion of one cupful to each gallon of water. Do not have the water more than lukewarm. Wash the floor with a soft cloth and polish with a dry one. To remove spots of paint from hardwood floors, rub briskly with kerosene, then rub the floor with a soft cloth wrung from lukewarm water.

There is nothing better than kerosene for removing paint spots from porcelain or glass.

Marks on tables caused by hot dishes may often be removed by rubbing with kerosene, then sandpapered.

To clean and brighten zinc, wash with hot, soapy water and polish with a clean cloth moistened with kerosene. If there are any spots on the zinc they may often be removed by rubbing with a thick slice of lemon. Let remain on for an hour, then wash off and polish as above.

A tablespoonful of kerosene added to the boiler of water will greatly facilitate the rubbing of the clothes.

Oilcloth may be brightened by rubbing with kerosene.

All solder spots around door-knobs on light painted doors may be removed by rubbing with a thick slice of lemon. Let remain on for an hour, then wash off and polish as above.

Kerosene is excellent for cleaning a sewing machine. Moisten all the bearings and metal parts with it, run the machine rapidly for a few minutes, wipe off all the liquid thoroughly, then oil.

**SEWING HINT.**  
To sew on patent fasteners or hooks and eyes, first sew at the smallest part of the fasteners or eyes, if hooks and eyes are used, on the garment all the way down, then pin the top and bottom of the garment together and press the back of the fasteners with an iron. This will leave dents on the other side, thus showing the correct place for the other half of the fasteners.

Many safety pins are a good substitute for eyes sometimes. After sewing the hooks on to the garment, fasten the pins on the opposite side underneath. These make good substitutes for eyes sometimes.

An easy way to make perforations for eyelet embroidery is to hold a piece of white soap under the needle, allowing the stiletto to pass through it. The slight stiffness imparted to the material insures the making of very even, perfect eye-holes, and does away with that tendency to close up which is often so annoying when the goods to be worked are fine and sheer.

**PROTESTS POULTRY STORAGE BILL.**  
Los Angeles merchants are very much concerned over the provisions in the cold storage bill, now before Congress, that no undrawn poultry shall be stored. The Young's Market Company has wired a protest to Senator Cummings, in which they state that every poultry dealer and packer knows that the goods they will not keep and that to keep this provision in the bill will result in disaster to the poultry industry as a whole. These make good sense, as poultry is a commodity which is produced very abundantly for a few months in the year only and during the period of overproduction the stock is not taken in and properly stored there will be no way of satisfying the demands of the consumers during the period of scarcity, so that the law as it now stands would benefit neither the producer nor the consumer.

## TILLAMOOK CHEESE

"Look for Tillamook on the Rind"

**The Recognized Standard for over 30 YEARS**

Primary table salt is one of the most important articles of the dietary. Yet its true value is very little understood.

There is a thing as preparing a meal without using salt for seasoning. Many articles of diet, such as potatoes, cooked, breakfast cereals, butter, and so on, would be deemed unpalatable if properly salted. Almost every one on the bill of fare is improved by the addition of a pinch of salt. Many dishes that require sugar are more tasty when a little salt is added.

Most households, after the fashion of seasoning the food is over, retire into private life on the table. The cook's pantry or in the kitchen closet and takes no other part in the household work. This is a mistake because it can be of great service to the busy housekeeper. A little salt will keep the starch on the carpet, one need not wash the floor, and it will keep the carpet from becoming soiled. A little salt rubbed on the carpet will keep it from becoming soiled. A little salt rubbed on the carpet will keep it from becoming soiled.

VALUE OF TABLE SALT:

BY WILLIAM J. CHROMIE,  
Instructor in Physical Education at University of Pennsylvania.

Table salt is one of the dietary articles of the diet, and its value is very little known. It is a very little known article of diet, such as salt, and as on, would be considered unimportant. Almost every article of food contains a pinch of salt. It is a very little known article of diet, such as salt, and as on, would be considered unimportant. Almost every article of food contains a pinch of salt. It is a very little known article of diet, such as salt, and as on, would be considered unimportant. Almost every article of food contains a pinch of salt.

CHOICE SPANISH DISHES.

Another reader who agrees with us that more Spanish dishes should be served sends us recipes for two Spanish dishes that are served every week in her home. She writes that she finds them delicious and nutritious but cautions against serving Spanish dishes to young children as the spicy, peppery foods are not good for them. Mrs. Denison's first recipe is for:

**Spanish Workingman's Salad.**  
Mixture for one person. Increase the amount for each person. Ingredients: 1 tablespoonful olive oil, 1-4 teaspoon salt, 1-4 teaspoon vinegar, Few drops squeezed onion juice, Dash of cayenne pepper. If prepared for adults—1-4 teaspoon chili sauce.

**For Ex-Servicemen.**  
Civil Service Opportunities of All War Period Offered.

Edward Tynan, local secretary for the local United States Civil Service Commission, announced yesterday that former soldiers, sailors and marines will be admitted to any examination, either assembled or non-assembled, which was pending on April 6, 1917, or which was subsequently announced, the eligibility resulting from which is still alive, either originally or by extension.

DANGEROUSLY INJURED.

Fullerton Advertising Manager Ill by Angeleno's Auto.

[EXCLUSIVE DISPATCH.] FULLERTON, Oct. 14.—A. G. Edwards, advertising manager for the "Daily Tribune," was dangerously injured tonight by being struck by an automobile, driven by Lew Virden, 230 West Seventy-fourth street, Los Angeles. In the car with Virden were four others, all claiming to be vaudeville actors on their way to Orange to give a show. Edwards was knocked down, the back of his head striking the pavement. A deep gash was cut in his scalp. Physicians have not determined the extent of his injuries.

—leadership

—it is generally admitted—that throughout the length and breadth of this country, there's no chain of grocery stores to compare with the Acme of Los Angeles;

—in the character of its stores; —the dependability of its merchandise; —its money-saving prices, and —its never-failing courtesy.

No wonder then that Los Angeles is proud of its Acmes!

No wonder that folks are quite ready to go out of their way—for the pleasure and profit of trading with an Acme.

Of a never-failing sweetness and goodness—is Acme butter. Costs a penny or two more the pound—and well worth it.

—be glad you have an Acme near you

**THE SUNDAY TIMES**  
Is acknowledged to be the Biggest Newspaper in ALL THE WORLD.

Babies Come First

FOR some weeks past, the demand for Arden Certified Milk has been far in the excess of the production. We have been obliged to disappoint almost 200 families wishing this milk. However, we felt that babies should come first, so have, in every case, favored those families having children.

We are now pleased to announce that 48 Jersey cows have been imported from the Imperial Valley, making a total of 160 Jerseys in the Arden Dairy herd of over 360 cows. With this addition we will now have an ample supply for all.

The Arden Dairy is the oldest and largest Certified dairy in the West and Arden Certified Milk has for 13 years stood the test for quality and has maintained a record for purity and richness surpassed by no other dairy in the country.

**Arden Certified Milk**  
RICHER and better milk cannot be secured. Arden Certified Milk is delivered by our 50 wagons and trucks.

—the result of a spirit of service, an organization proud of what it serves, an organization bent on excellence, an organization that has the welfare of the community at heart.

**Arden Creamery Co.**

DOMESTIC ECONOMIES.

Don't throw away your oil money because it has grown dirty and full of dust. Fill a pail with hot water, pour in two tablespoonfuls of ammonia and half a cup of Gold Dust. Scour up and down in this mixture until all the grease and grime are removed, dry in the open air.

Old silk stockings make excellent dusting cloths if several are tacked together.

Now that the colored, bordered handkerchiefs are so fashionable, it is well to know that if they are soaked in cold salt water for about fifteen minutes before washing, the color is not liable to run or fade.

WARNS OF SWINDLER.

Advertising Club Gets Information of Fake Solicitor's Operations.

A. H. Wilkins, director of the Better Business Bureau of the Los Angeles Advertising Club, yesterday received warning of the operation of a man who represents himself as being an employee of the advertising department of the Firestone Tire and Rubber Company of Akron, O. It was stated that he has been collecting on fake checks. The warning came to the local club from the National Vigilance Committee of the Associated Advertising Clubs. It was stated that the man calls principally on lumber concerns, orders a quantity of material to be used for bill boards, presents a check bearing the rubber stamp signature of the Firestone Company and signed with a fictitious name. This check is made out for more than the amount of the goods ordered. He gets the difference.

MUST MAKE CHOICE.

Woman to Dose Suit If She Doesn't Rent Mate Room.

Mrs. Flora M. Cotter was given the choice by Judge Crali yesterday of accepting the proposition of her husband, Alexander A. Cotter, to rent him a room in her house for \$14 a month and pay her \$15 a week for the support of her minor child, or having her separate maintenance suit dismissed.

In her action she charged desertion. Mr. Cotter denied the charge. He was represented by Attorney Warren Williams, who introduced a letter written by Mrs. Cotter, saying: "It is too bad you could not have known some of the hardships of a soldier's life. The discipline would have been fine for you. There, at least, you could not have shirked your job and, in a mad fit, leave everything because you could not make things go and put the blame on a woman."

## LIGHT SOUPS.

Light soups are mainly vegetable; still, some are improved by the addition of meat stock. For instance, boilings from poultry or mutton and what any careful housekeeper can make from bones and scraps to be found in most larders.

## Stock from Bones.

If the bones are large, chop them as small as possible, and to every pound of bones add odd pieces of all four cups of liquor, in which vegetables have been boiled, making up with plain water if not sufficient, or all water may be used. A whole onion may be added, stuck with three cloves, a teaspoon of salt, a teaspoon of celery salt and a teaspoon of flour sprinkled over the top. Simmer for three or four hours, removing as it rises the foam which the flour will help to bring up.

By attending to this the stock will be much clearer than it would be otherwise. When done, strain, and if not used the next day, boil again, and every day until required, or it will turn sour.

## Cucumber Soup.

1 large cucumber.  
2 tablespoons drippings.  
4 tablespoons flour.  
1 quart peck of spinach.  
2 cups milk.  
2 cups water.  
2 tablespoons cream.  
1 teaspoon salt.  
1/2 teaspoon pepper.

Peel the cucumber and cut of the best parts cut some shapes with a vegetable cutter, or if one is not at hand, cut cubes instead. Boil these in boiling salted water until tender; drain and lay aside. Slice the rest of the cucumber and put it in a pan with the water and spinach. Some of the peel may go in, too. Boil until tender, and rub through a sieve. Rub together the drippings and the flour, add to the milk and the cucumber pulp. Boil together for fifteen minutes, lastly add seasonings and cream. The cream, however, may be omitted and a little more drippings be substituted. If too thick, add more milk. Put the dice of cucumber in the tureen and pour over the hot soup.

## Italian Soup.

4 cups stock.  
1 tablespoonful instant tapioca or sage.  
2 teaspoons grated cheese.  
1 egg yolk.  
1/2 cup milk.  
4 sticks macaroni.  
1 teaspoon salt.  
1/2 teaspoon pepper.  
1-4 teaspoon paprika.

Put the stock in a saucepan and bring to boiling point, shake in the tapioca, stir and boil for fifteen minutes, when it will be clear. The macaroni should be broken into small pieces, boiled separately, and then added to the soup. Beat the yolk of egg with the milk and stir in next; but it must not boil after this, or the soup might curdle. Add seasonings, and when off the fire sprinkle in the cheese. Serve hot.

## Green Pea Soup.

1-4 peck green peas.  
12 leaves mint.  
4 spring onions.  
1 tablespoon flour.  
1 bunch parsley.  
1 tablespoon drippings.  
1 teaspoon salt.  
1/2 teaspoon pepper.

Shell the peas and wash a handful of the best shells. Cut up the onions, leaving in all the green stalks. Wash the spinach and parsley. The former helps to keep the soup a good color. Put all these to boil in the water for one hour; rub through a sieve and return to the pan, with seasonings, and the drippings rubbed with the flour. When it has boiled for eight minutes the soup is ready.

## Corn Soup.

1 can corn.  
4 cups stock.  
1 cup milk.  
1/2 tablespoon cornstarch.  
1 egg yolk.  
1 tablespoon chopped parsley.  
1 teaspoon salt.  
1/2 teaspoon pepper.

Open a can of corn and put it in a saucepan with the stock or meat boilings. Bring to the boil and simmer slowly from ten to fifteen minutes. Then rub as much as possible through a sieve. Rub out the pan and return the soup to it. Add the cornstarch mixed smoothly with the milk and stir until boiling. Cook for ten minutes longer, add the parsley and the seasonings. Put the yolk of egg in the soup tureen and pour the soup gradually on to it, stirring all the time. Serve with toast strips or with puffed rice, lightly toasted.

## Carrot Soup.

3 bunches carrots.  
1 onion stuck with three cloves.  
1 bunch herbs.  
1 stick celery or quarter teaspoon celery seeds.  
1 teaspoon salt.  
1/2 teaspoon pepper.  
2 tablespoons drippings.  
4 cups stock.  
1 ounce lean ham.  
1 cup milk.  
1 tablespoon cornstarch.  
1 pinch powdered nutmeg.

The carrots used for this soup should be very red; if the inside part is yellow, it should rather be kept for flavoring the stock pot. Wash and scrape the carrots, cut them in thin slices, and let them soak in cold water for a few minutes. Prepare the onion and cut it in shreds and cut the ham in small pieces. Melt the drippings in a saucepan, strain the water from the carrots and add them to it with the prepared ham, onion and celery. Put on the lid and cook them for a few minutes, shaking the pan occasionally, and being careful that the contents do not burn. Add one-half the stock, and stir over the herbs and a little salt, and simmer slowly for one hour. Then add the rest of the stock, and cook for one hour longer, or until the carrots are quite soft and pulpy. Rub the soup through a sieve, rinse out the pan, and return the soup to it. Add the nutmeg, salt, or a little water if the puree is too thick. Rub the cornstarch with the milk, add the milk to the soup and stir over the fire until boiling. Then add the seasonings and nutmeg and simmer for ten minutes longer. Serve with croutons of toast, or a dish of well-boiled rice may be served separately. One tablespoon of arrow root may be used for thickening the soup instead of the cornstarch. A rich cream soup may be made by adding one cup of cream instead of the milk.

## TRIPLE FRUIT JELLY.

Boil together, until soft, four quinces, pared and cut into small pieces; one quart of cranberries, two quarts of apples, cut into small pieces. Strain through a jelly bag over night. Measure the juice and boil three to five minutes. Add an equal measure of heated sugar, and boil from three to ten minutes or until the jelly test is given. Pour into hot glasses. The next time you have jelly which does not seem to be as firm when it is cold as you would like it, stand it in the sun for a day or two covered with a piece of glass. Then cover it with paper or paraffin as usual.

## FOR NEW TERMINUS.

Van M. Griffith, municipal motor bus commissioner, yesterday recommended to the City Council that the southern terminus of the municipal bus line into Griffith Park and the municipal golf links, be moved from Fountain and Vermont avenues to First street and Vermont avenue, because of the increased patronage possible there. He also requested funds to provide for such changes.

## GETS LONG SENTENCE.

Otis Franklin Vail of Long Beach was sentenced to from one to ten years by Judge Willie yesterday for a statutory offense. Witnesses against the man were his daughter, Ella Vail, 13, and Mrs. Della Vail of Long Beach. He was convicted and asked for probation, which was denied. The offense occurred on July 11.

## A DISCOVERY THAT BENEFITS MANKIND

Two discoveries have added greatly to human welfare. In 1855 Newton originated the vacuum process for condensing milk with cane sugar to a semi-liquid form. In 1883 Horlick at Racine, Wis., discovered how to reduce milk to a dry powder form with extract of malted grains, without cane sugar. This product HORLICK named **Malted Milk**. (Name since copied by others.) Its nutritive value, digestibility and ease of preparation (by simply stirring in water) and the fact that it keeps in any climate, has proved of much value to mankind as an ideal food-drink from infancy to old age.

## FOR DEATH OF SON.

For the instant death of her son, Robert C. Johnson, 18 years old, who was struck by a Ford car while he was standing near a motor truck in front of his residence, 924 Alameda street, Mrs. Edith M. Johnson filed suit yesterday, asking \$10,000 damages. The defendants named in the complaint were C. T. Harley, Chauncey C. Harrington, H. L. Bloomman and P. F. Collier. The suit was prepared by Attorneys Geneser Williams and Robert H. Scott.

DOCK WORKERS OUT ON STRIKE.

Stop Work at Harbor When Rise Demands Fail.

Their Places Quickly Filled by Nonunion Men.

Company Adopts Open-Shop Plan After Walkout.

One hundred and twenty dock

workers deserted a shipload of pine-

apples at Los Angeles Harbor yester-

day and went out on strike after their

demand for a raise in wages had been

rejected by the Outer Harbor Dock and

Wharf Company.

The strikers were engaged in un-

loading a cargo of pineapples from the

steamer Balleit, which arrived yester-

day from Honolulu. They have been

receiving 45 cents an hour for work

on the wharves and \$1 an hour for

working time on board ship. In their

ultimatum presented to the company

yesterday morning they demanded \$1

an hour for working time on the wharf

and \$1.50 an hour for overtime which the

company said it could not pay.

Following the walkout the work of

unloading the pineapple cargo was

continued with a new crew of

the Outer Harbor Dock and Wharf

Company officials stated yesterday

that the work on the wharves would

be continued on the open-shop plan.

One hundred and twenty dock

STOKES EVADES LATEST CHARGE.

Coroner Hartwell was convinced

yesterday that Mrs. Roberts, the widow,

could not return from Iowa in time

for the inquest, so he had to look

for other evidence.

Attorney Davis yesterday visited

the scene of the crime at a point in

front of Capt. Stokes' home and

continuing to the place where the

machine went off the road into a

point near the La Brea pits, and

where the body of Dr. Roberts was

found. Mr. Davis said that he had

not secured Capt. Stokes' story in

full, and would make up the

statement at this time as to the

defense. He declined to say whether

or not the "unwritten law" could

be used in some form by the

defense at the trial.

The prosecution will be represented

at the hearing by Deputy District

Attorney Powell, who said yester-

day that enough evidence had been

gathered to show that the story

told by Capt. Stokes is highly im-

probable, and that the state con-

fessed to the charge, while

Walsh denied being implicated in

the theft.

FOR ADDITION TO "SUB" BASE.

Southern Pacific is willing to

Sell Necessary Land, Shoup Says.

Paul Shoup, vice-president and

managing head of the Southern

Pacific, conferred yesterday with Mayor Snyder,

Councilman Fleming (chairman of

the Harbor Committee) and As-

stant City Attorney Stephens

regarding the proposed purchase

of land owned by the Southern

Pacific at the harbor, which is

desired as an addition to the

site for the proposed submarine

base.

After the conference Mayor Snyder

stated that Mr. Shoup is willing

to sell this land and that it is

now simply a matter of carrying

out the necessary negotiations.

The City Attorney yesterday

appointed five appraisers for

this land. They are Gilbert

Gardner, Paul Crippen, Ray

Mitchell, William M. Garland

and Charles G. Andrews, the

latter two being members of the

appraisal board of the Los

Angeles Realty Board. They

will meet at 9 a. m. tomorrow

with the City Attorney for their

TIFFANY STUDIOS

NEW YORK

FALL HOME DECORATIONS

In beautifying the home for fall let us give you our in-

spirational help predicated on a scientific study of this

exacting phase. As exemplars of the art of home decora-

tion in all its manifold aspects, the Tiffany Studios attain a

degree of perfection that stand as a criterion of achievement

on the Pacific Coast.

Overstuffed Chairs

The Perfect Relaxation Suggested

is certainly apropos at this season of the year, when the

domestic hearth assumes its accustomed place of prefer-

ence in the hearts of all home lovers. These are upholstered

in all hair, feather and down cushions, and impart an

inviting welcome to those in quest of luxurious comfort and

restful ease. These chairs are cleverly and artistically covered

in denim, and are ideal comfort accessories for the library or

living-room.

Library Lamps

## PARLOUS TIMES AT U.S.C. CAMP.

Oxy "Spy" Set Upon, Given  
"Chem" Pond Wetting.

Observers Persona Non Grata  
with Trojan Coach.

Varsity Footballers Look Bet-  
ter Each Practice.

These are parloous times out U.S.C. way. Coach Henderson is putting his weekly football players through secret practice. A former Occidental student now attending the Wesleyan institution was set upon for a spy the other night and unceremoniously ducked in the "chem" pond.

Last night the whole Trojan varsity charged the steps overlooking the football field and cleared them of observers. Henderson is taking no chances even with U.S.C. students. Henry Bruce, graduate manager, and Capt. Bryant, the varsity trainer, are kept busy as official bouncers.

Bruce had a practice game lined up with Glenn Whittle's L. A. High team for last night, but the Pioneer coach telephoned that he couldn't make it. The City League season opens next week, and Whittle doesn't want to take chances of injuring his men by sending them against Henderson's bruisers.

Whittle had a good hunch. The Trojans are going better and better every day. The "frosh" held the varsity to two touchdowns last week. Yesterday, substituting for the L. A. High team, they held it to six. These same "frosh" beat Manual 14 to 10, and no one has considered the Pioneer the equal of the "frosh" eleven.

Henderson stuck a new face in the Trojan backfield for a few minutes

Two hundred and ten pianos  
sold in one day. City schools  
bought from Bartlett Music Co.  
Two hundred and ten pianos  
must now be sold in October to  
private homes.

## WALTER MILLER TALKS.

Walter Miller, wrestler, uttered a few remarks on his own behalf last night:

"This talk that I am afraid to meet Gutch is ridiculous. I have met and beaten too many real wrestlers to run from this bird. It looks to me like he is the one who is trying to get out of the match by demanding my appearance on an impossible date. I will meet him on November 4 if I have to wrestle on crutches. The surgeon's statement shows whether or not I am acting in good faith. Here it is:

"To Whom It May Concern: This is to certify that Mr. Walter Miller has been under my care on account of an injury to his ankle, and it would be absolutely unwise for him to attempt to enter a wrestling match during this month.

"In all probability he will be able to wrestle any time after October 31.

Very respectfully,  
[Signed] "HARRY H. WILSON, M.D."

last night and it looked good. The physiognomy belonged to Mel Stew- art, who showed himself possessed of a pair of legs that could travel and travel fast.

There is talk of a game between the U.S.C. freshmen and the Occidental first-year men. The Trojan babes believe they have about the best team in existence. Since Oxy trimmed Covina by a large score and took the measure of Hollywood they have been thinking in the same strain. The only thing that may hold up the contest is the securing of permission from the Oxy athletic board for the Tiger babes to play. It would be a great game.

The U.S.C. "frosh" have been bolstered by the addition of a first-string man on Henderson's team at the University of California in Berkeley. He is one Peterson, a fast runner, and is a fine athlete.

An epidemic of boils is making the rounds of the Wesleyan athletes. "Chick" Fox has an infected arm and one of the Lindley twins has a couple of "five-spots" on his hip.

"Fox" Station is earnestly prepping his Tiger athletes for the certain slaughter that the fans have prophesied for his team when it bumps up against the University of California next Saturday at Berkeley. You never can tell about these slaughterers though. The soothsayers predicted a 35-0 win for Oxy over Whittle last Saturday. Look what happened. There would have been only one touchdown's difference between the two teams had a Peet player blocked instead of held an opponent while a mate was running for a certain score.

Wonder why the Whittle quarter-back failed to use Full-back Simon more on straight line plunges in last Saturday's game. Simon responded on the two or three occasions he was called with substantial gains. The rest of the afternoon he was kept busy hurling forward passes.

There's a lot of interest in the Redlands-Pomona game next Saturday. It will serve to introduce both teams to the football lovers of the south. It will also give a line on the capabilities of that Nixon line-up.

Henderson is working his men tooth and nail for the game with Pomona on the 15th. He believes the contest will settle the Southern California championship without a doubt.

Must have been some game at Berkeley last Saturday when California defeated St. Mary's 19 to 0. All the scoring was done in the second half—one touchdown in the third quarter and two in the fourth. Gordon Murray, a substitute half-back, was responsible for two of the scores with fifty and forty-five-yard runs respectively. His sterling work will probably land him a place on the varsity.

## NIMRODS SET FOR BIG GAME.

(Continued from First Page.)

are always lots of birds in this dis- trict.

BONBALL: Plenty of birds here, but hard work on account of high brush and steep hills.

SANTA YSABEL: Plenty of quail here. Have the storekeeper direct you.

WARNER'S RANCH: Good duck and quail shooting.

RAMONA AND CUYAMACA LAKE: The lake is alive with ducks and should produce many limits.

QUAIL ALSO PLentiful.

DESCANSO: Quail in all direc- tions.

MORENA RESERVOIR: Fine ducks, black bass and quail.

SWEET WATER DAM: Fine ducks, black bass and quail.

BIG BEAR AND BALDWIN LAKES: The waters of these lakes are black with ducks and if you are fortunate enough to secure a blind and a boat a good shoot is assured.

Parties going to Bear Lake should either go by Victorville or crest route, as Mill Creek is in very bad condition.

BURBANK, SUNLAND AND BIG TRUNDA WASH: A few coveys are in this locality and every year limits are killed here.

CALABAZAS: Proves good shooting for the first few days and then they take to the tall brush and high mountains.

NEWBURY PARK AND CO- NEJO: Along stubble and foothills.

MATHERSON LAKE: Ducks fine and bass plentiful. Permit required to shoot here.

POINT MAGU: On the Broomes ranch, fine for ducks and quail. Permit required to shoot here.

MOORPARK: Quail and rabbits plentiful.

GRIMES CANYON: Quail.

CASTAC CANYON: Quail.

SAUGUS: Quail.

MINT CANYON: Quail.

ACTON: Quail.

PALEDALE: Quail in foothills toward Little Rock.

LITTLE LAKE: Ducks fine.

OWENS LAKE (Olancho Keel- er's, Lone Pine): Long trip, but excellent duck shooting.

AVIATOR DIES.

(BY A. P. NIGHT WIRE.)

GREENVILLE (S. C.) Oct. 14.—Redman Law, aviator and parachu- te leaper, who started New York, Chicago and other cities by his feats, died today at the Camp Sevier Hospital of pulmonary tuberculosis. He was a brother of Ruth Law, the aviatrix.

CAPTAIN BROOKS NOW.

(BY A. P. NIGHT WIRE.)

BERKELEY, Oct. 14.—Fred Brooks, 18, former Los Angeles High School player, today was elected captain of the University of California football team for the 1919 season. Brooks was captain-elect of the 1917 team, but left college to enter the service. He is full-back on this year's team.

## McGREGOR HAS EDGE ON RACE.

Wins Spectacular Event from  
Mariondale.

Mamie Locke Starts, Breaks  
and is Outdistanced.

Louis Gratton Runs Away with  
Second Affair.

(BY A. P. NIGHT WIRE.)

ATLANTA (Ga.) Oct. 14.—Today's Grand Circuit racing at Lakewood track here was signalized by a spectacular battle between Cox and Murphy, piloting, respectively, McGreggor the Great and Mariondale, for a purse of \$3500 in the 2:10 class trotting event, the main one on the card. The honors went to Cox in straight heats.

Geers started his Mamie Locke in this race but she broke so badly near the half-mile post in the first heat that she was distanced. Mariondale made the Cox horse fight for every inch of ground. The best time of the meeting so far was made in the second heat, when McGreggor clipped off the mile in 2:08 1-4.

Louis Gratton, driven by B. Fleming, won the 2:12 pace in three straight heats from a field of four starters, second money going to Betty Blacklock, piloted by Walker.

The other event today was a 2:18 class trot in which only southern horses started and was won by Harry B. an Atlanta owned chestnut horse, driven by Bertley. Best time.

The summary:

2:10 class trotting, purse \$3500.

Harry B. (ch.) by John W. Barker, 2:08 1-4.

Best time, 2:08 1-4.

2:12 class pace, purse \$1000.

## NIEHAUS SLIPS TIGERS A JOLT.

(Continued from First Page.)

Paul run when he opened the second with a single to right. Hargrave sent him to second with a sacrifice. McDonald drove to center for one base, Hyatt beating Chadbourne's throw to the plate. Mac took second on the plate peg. Berghammer and Boone both grounded to Fisher.

At the start of the fourth, Elmer Miller got his eye on the ball for the first time since arriving in these parts. He crashed a low line drive down to Beck. The ball caught Zinn on one of his knees, and careened over to the bleachers for a two-base hit. Hyatt walked. Hargrave drove to Mitchell. Johnny had a clear play for a force-out at second, but couldn't make it. The ball stuck in the webbing of his glove and before he could unscramble it, all hands were safe, filling the bases. Finerman bunted one at McDonald's head, with the result that the ball got away from Brooks for a wild pitch. Miller scored on this, and the other runners advanced. Hyatt scored when McDonald bounced a high single to Fisher back of second. Hargrave took third, and counted when Berghammer batted a long sacrifice fly to Chadbourne. Boone popped to Fisher, and Niehaus whiffed. A blind man could see which way the break was going in this round.

Promme, after walking the first man up in the sixth, was relieved by Rose. Sam stopped the Saints in this round, and they stopped him in the next. Boone bumped him for a double in the seventh, and Niehaus walked, putting two on with none down. At this point Promme was hustled in from the bench. He finished warming up by walking Rig- gert, which perched an Apostle on every base. The righteous seemed, in- deed, to be suffering the same way you looked there was a Saint. Duncan drove a fly to Menzel, Boone scoring. It was a fairly deep fly, but Menzel made a throw to the plate of such power and beauty that Boone barely beat the play. Promme held Miller and Hyatt to fouls that Edington strangled.

The Tigers had their best chance in the sixth. With one gone, Chad- bourn and Menzel singled, the for- mer landing on second. Fisher drove directly at second base. Bergham- mer took the ball while standing on the bag, and fumbled it, not only losing a force-out but a sure double play. Thus the bases were loaded, and they were destined to stay in that condition. Edington died. Rig- gert, but the swat was not healthy enough, and Chadbourne didn't com- mit suicide on the bases by trying to score after the catch. Long drove to Berghammer for a force-out at second, and the Tigers had sur- vived for the afternoon. The score:

ing your own stationery.

# HELP!

## Just Where You Need It In Your Printing Problem

Single-handed the Multigraph has tackled one of the biggest cost problems in business today—and has won hands down.

You know—every business man knows—how printing prices have gone up, *up, UP, UP.* It's the same story all over the country.

Thousands of business concerns have been forced to *do without imperatively needed direct-mail features, folders, enclosures, bulletins and so on.* Or to *put off* sales literature that ought to be out in the field *right now doing a big job of selling in an active, competitive market.* Or to pay double and triple prices for *delayed production, decreased quality and reduced quantity* on office and factory forms, stationery and other printed matter that simply *can not be either post-poned or sacrificed.*

You want something done about it, and done in a hurry—but what? The printer can't help the situation—everything he uses *costs more, and more and more.*

*Who is the David that will tackle this Goliath?*

## Read This!

In my office I have a most unusual exhibit of printed matter of every sort—the list is printed at the right. I am calling your attention to this in ONE advertisement—there will not be a second—and I want every business man TO KNOW THE FACTS.

I want you, personally, to see the variety of this printing, and the quality of this printing, and to learn the amazingly LOW COST of this printing.

Don't rely on second-hand information, come yourself. You'll know quality when you see it; and I have the actual figures of the actual users to prove the cost of production.

In this emergency there is no excuse for any one to be ignorant of what the Multigraph can do and IS DOING. No excuse for thinking it doesn't do real printing. No excuse for overlooking the hundreds of kinds of Multigraph features—many of which are passing every day right under your nose—every one of which meant a big saving in time, and a big saving in money to some one.

One of the best-looking letter-heads you've seen for a long time was printed on the Multigraph—you said "Fine!" and never even tried to find out where it was printed—though you ticked like a steer at the last invoice for printing your own stationery.

You walk into a friend's office and he shows you the forms by which he keeps track of his business—factory cost sheets, stock records, job-tickets, shipping forms—all sorts of features that mean better and cheaper production. And you never learn that somewhere in his office a Multigraph is paying for itself on that work alone.

Tons of printed cards, tags, labels, folders and enclosures are made more effective by IM-PRINTING—and yet you are too indifferent or too uninformed to know that your competitors save hundreds of dollars a year by using a Multigraph for imprinting.

You say you believe in direct-mail advertising, and do a lot of it—but you also believe in paying twice as much for it as you need to. If not, why haven't you noticed that some of the stuff that comes in your mail and gets your business was printed on the Multigraph?

The Multigraph in this country will make *thirty million impressions* this very day, and tons and tons of paper will be used for the purpose in all kinds of business concerns.

The demand for Multigraphs in September was 80% greater than a year ago; this month it will be 100% greater. The business men of America have waked up to the fact that it is one of the best buys in labor-saving, profit-making

machinery on the market. These men aren't fools—they have gone to the mat with a big printing problem and got real facts and real figures just as you can do.

This is not a bluff, or camouflage or anything but a simple statement of fact. This advertisement is printed because a business man came to us and said, "When business is facing the stiffest

printing problem it ever met and you have the answer, why don't you tell it to every business man in every important city in the country. You owe it to them as an economic duty."

Therefore, this advertisement is being published simultaneously in every city where we have an office. It is published for the express reason given—and there will be no repetition of it. Now is the time to investigate—reach for the telephone. We certainly hope the Multigraph can help you—but—

**"You Can't Buy a Multigraph Unless You Need It."**

## Look at These!

### "Printed on the Multigraph"

Call at the address given below and see actual samples of printed matter produced by Multigraph users—not typewritten, but *printed* with real printers ink, and type, with illustrations—and yet done by a small machine that takes up little room and does not turn your office into a printing plant.

Office forms	House organs	Cards	Bank checks
Office stationery	Booklets	Notices	Deposit slips
Factory forms	Pamphlets	Imprinting	Order blanks

way to the social order of the times. We look forward to that time when we shall work in unity, so that the rights of all men may be conserved.

In conclusion, Bishop Leonard said the ultimate aim of the university was to raise an endowment of \$10,000,000, so that the institution's constructive plans might be realized.

President Boyd reviewed the work of the university from its beginning and paid high tribute to those responsible with him for its progress and upbuilding. He said the prosperity of the institution was the result of the co-operation of the student body, the faculty and trustees.

**DR. EVANS SPEAKS.**

Referring to the university's opportunity to become greater in its service to the country, President Evans of Occidental declared that the test today of an educational institution's worth was its ability to produce leaders.

The impressive need of the world today in leadership, he said, "and our colleges to make good must produce leaders. If our government fails, it will be due to the cowardice of the intelligent rather than the bravery of the ignorant."

Mr. Workman declared that the progress of the university had kept pace with the wonderful development of Southern California and paid tribute to President Boyd for his part in the work.

The massive granite cornerstone was the gift of the class of 1910.

**WANTS PAY FOR BITES.**

**Fifty Thousand Asked by Woman Put in Filthy Jail.**

Alleging that she was arrested November 22, 1910, charged with Negrancy and kept in a cell for three days and nights, Eugenie Woods brought suit yesterday against former Chief Butler, G. W. Henry, R. L. Bergman and A. Dillon demanding \$50,000 damages on the ground that her arrest was without probable cause. The plaintiff says she conducts a sanatorium. In the complaint she says she was put in a "filthy, vile and loathsome cell," and suffered from infectious bites of "body lice, head bugs and fleas," with consequent "loss of sleep thereby until she was in fit condition for the insane asylum."

**FOREMEN EXEMPTED FROM EXAMINATION.**

The Municipal Civil Service Commission yesterday notified the City Council that it has exempted from civil service provisions the positions of concrete building foreman, steel pipe construction foreman and carpenter foreman at the work at Power Plant No. 2 in the San Francisco Canyon. Heads of departments in the Bureau of Power and Light asked for these exemptions because of the difficulty in getting certified lists from the Civil Service Commission.

**LOSERS WRIT APPEAL.**

**Court Decides Dice Game Question Against Venice Man.**

The First Division of the District Court of Appeal yesterday denied a writ of habeas corpus sought by John N. Lewis of Venice, and remanded him to the custody of Sheriff Cline on a charge of violating the California lottery laws. Lewis conducted what is known as the "Razzie Dazzie" game in Venice. There is no municipal ordinance in that city relating to dice games.

It was urged on behalf of Lewis that the white chips given those who were lucky enough to throw the proper numbers in dice, were not things of value, as provided in the statutes, but the court decided against him.

**THREE APPLICATIONS FOR PASSPORTS HERE.**

A Robert Casan of this city, who wants to go to England and France for the announced purpose of establishing a wholesale candy business, applied here yesterday for a passport.

Mrs. Gertrude B. Lull asked for a passport to allow her to join her husband at Sonora, Mex.

H. Walter Slugg of Uplands applied for a permit to allow him to go to Cuba, where he has secured employment.

**WILL BE TRIED AGAIN.**

C. A. Brown, accused of driving an automobile while intoxicated, will have to stand trial again. It was decided yesterday by Judge Craig A. Jury was unable to agree last week as to his guilt. The court set the case for trial again on December 2. A motion on behalf of the defendant that he be released on his own recognizance was denied by the court.

**FARMING STUDENTS TO SEE BIG SHOW.**

**ADDITIONAL TICKET SALES STATIONS ARE OPENED FOR STOCK EXHIBIT.**

As guests of the management, and under the personal conduct of Farm Adviser Hodgson and his four assistants, 240 students of the Los Angeles high and intermediate schools will attend the Los Angeles Live-stock Show next week. The farm bureau forces will point out the different breeds of cattle, swine, sheep, horses, goats, poultry and rabbits for the benefit of these students, who are enrolled in the department of vocational training of the city schools, and who, most of them, expect to become farmers.

The boys will be split up into groups, fifty attending the show each day from Monday until Friday, inclusive. On Friday the entire 240 will be in the "better livestock" grand march of prize winners. Farm Adviser Hodgson has delegated Assistant Farm Advisers Scribner, Gordon, Blanchard and Waterhouse to assist him in this educational work.

The society fancy saddle and driving horse show, which will be held in connection with the Live-stock Show at Exposition Park, October 18 to 24, is attracting such widespread attention that the directors found it necessary yesterday to open a number of additional ticket sales stations in the downtown section.

From today until the end of the show tickets will be on sale at the following places: W. H. Hoegge Company, 125 South Main street; Boos Bros., 426 South Hill street; Ralphs Grocery, 435 South Spring street; A. W. Robinson Company, Seventh street and Grand avenue; Ville de Paris, Seventh and Olive streets; Fifth Street Store, Fifth and Broadway; Hamburger's, Eighth and Broadway; Bullock's Seventh and Broadway, and Barker Bros., 724 South Broadway.

Those who attend will be enabled to enjoy five big shows in one, as, in addition to the live-stock display, which has brought together the finest domestic animals in the United States, there will be a kennel exhibit, in which 500 dogs will participate, a poultry show, the harness and running race meeting and the society horse show.

A feature of the horse show that will be the price of admission alone will be a daily exhibition of Ulan, the champion trotting horse of the world. Ulan will not compete for prizes, but will be driven under saddle and hitched to sulky by his owner, C. K. G. Billings, of New York and Santa Barbara.

Oldest Dry Goods Store in Los Angeles Best in Dry Goods Since 1878

**Coulter Dry Goods Co.**

FOUNDED - 1878

Seventh Street at Olive

Sole Los Angeles Agents for St. Mary's Blankets

Sole Los Angeles Agents for Ostermoor Mattresses

**Autumn Suits Admirably Combining Beauty of Material With Reasonableness of Price**

Few extremes of style are shown in these good suits; rather, they are dignified by a studied simplicity of design that permits the beauty of material, the splendid tailoring, to show to its best advantage:

**Serviceable Suits Are These**

Developed in highly-stylish fabrics—tricotine in navy, straight-line models, some of them belted, others trimmed with narrow bands of self-material; some with quantities of buttons; some with the narrow belt now in vogue.

**\$59.50, \$65.00 and up to \$129.50**

Wool velours and duvet de laine suits in taupe, henna, brown, plum, wine; some models quite plain, some pin-tucked; some touched with embroidering—each with a feature making for individuality.

**\$55.00, \$59.50 to \$89.50** (Arguments: Third Floor)

**New All-Linen Handkerchief Centers**

Have just arrived, for which a great many women have been waiting. They range all the way from the popular seven-inch to the twelve-inch size, and are the kinds to be lace-trimmed.

**20c, 25c and 35c each** (Handkerchiefs: Main Floor)

**Household Necessities**

**O-So-Easy Mops**—self-feeding, for polishing, \$1.25; other styles, \$1.00 and \$2.25.

**Two-in-One Mops**—interchangeable oil and dust; at \$2.00.

**Cedarwax Polish**—for automobiles, furniture, floors, etc., from 50c pint to \$2.50 gallon. (Main Floor)

**COULTER'S—Seventh Street at Olive**

**Modish Millinery**

**For Autumn and Early Winter**

Fashion is kind to women this season in the matter of hats—if you feel that a turban better becomes you than a large, drooping shape, fashion has created darling little close-fitting affairs of feathers, of duvetyne, of a dozen or more materials and trimmings, for you.

If you prefer the medium or quite large styles, you will find equally as good selection. And if your choice is made at Coulter's, you will be pleasantly surprised at the very moderate prices attached to the smartest millinery. (Third Floor)

**Fetching Trimmings for Evening Gowns**

Opalescent trimmings have fashion's favor to a great extent; especially the bolero effects in garnitures, appliques, wide and narrow bands, fringes, ball pendants, tassels, girdles and the like.

Probably the next favorite is jet, and at Coulter's one may select from the cream of the best in these lovely trimmings. (Main Floor)

**DARING YOUTH ESCAPES AGAIN.**

**Fifteen-Year-Old Auto Thief in Second Break-away.**

**Flees in Stolen Car, Belief of Hunting Officers.**

**Recently Tried to Shoot Men Who Recaptured Him.**

Climbing a high fence at Juvenile Hall yesterday, Don Clauser, 15 years of age, of 1343 South Flower street, charged by the police with the theft of five automobiles and wanted for a number of burglaries, escaped from custody and is believed to have stolen another automobile from a downtown street and driven out of the city. This is the second escape of young Clauser; he previously got away from the Juvenile Bureau at Central Police Station. At that time he was quickly recaptured and delivered to Juvenile Hall.

According to police officers who yesterday again took up the search for the youthful bandit, Clauser is one of the most daring automobile thieves in the city. The boy, the officers say, always steals automobiles from parking places where guards are stationed. His youth, the police state, favors his operations and he is able to drive automobiles away before the guards discover that he is a thief.

Police records show that young Clauser before his first arrest stole five high-priced automobiles and also ransomed several houses. Following his escape from Central Police Station the boy stole another automobile and also a revolver. When recaptured he attempted to shoot several police officers.

## Don't Pamper Your Stomach

Fear of Dyspepsia Robs the Entire System of Necessary Nutrition. Eat a Diversified Meal and With Stuart's Dyspepsia Tablets You Will Avoid the Distress of Indigestion.

Just because the stomach sours with gasiness, heartburn, water brash and such distresses after eating, is not a good reason for depriving the system of nourishment. Instead of indigestible and innutritious bran and skin milk try the better plan of eating what you like and follow your meals with Stuart's Dyspepsia Tablets. They digest food, they assist the stomach to secrete juices that keep the stomach sweet, active and with the alkaline effect, just as when the stomach is in perfect health. Nor is it necessary to discriminate. You may eat freely of onions, sausage, mince pie and baked beans, or other dishes, such as the average dyspeptic views with horror, and suffer no distress if you follow with Stuart's Dyspepsia Tablets. There is thus no need to fear any kind of food at any time or place, for with these tablets you may prevent those distresses that formerly made you pamper your stomach as if it were a tender infant. You can get Stuart's Dyspepsia Tablets in any drug store at 50 cents a box.—[Advertisement.]

## Nasty Colds

Get Instant Relief With "Pape's Cold Compound."

Don't stay stuffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks up a cold and ends all gripe misery.

The very first dose opens your congested nostrils and the air passages of your head, stops nose running, relieves the headache, dullness, feverish, sneezing, soreness, stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance. Tastes nice. Contains no quinine. Insist on Pape's.—[Advertisement.]

UH! EACH DAY

A LITTLE MORE

Harry! Let "Danderine" check Ugly Dandruff and Stop Hair Falling.

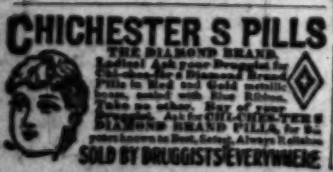

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of delightful "Danderine" at any drug or toilet counter for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair usually stops coming out and you can't find any dandruff. Help your hair grow long, thick and strong and become soft, glossy and abundant.—[Advertisement.]

## NEGLECTING THAT COLD OR COUGH?

Why, When Dr. King's New Discovery so Promptly Checks It.

It's natural you don't want to be careless and let that old cold or cough drag on or that new attack develop seriously. Not when you can get such a proved successful remedy as Dr. King's New Discovery.

Cold, cough, gripe, croup does not resist this standard revealed very long. Its quality is as high today as it always has been—and it's been growing steadily in popularity for more than fifty years. 50c and \$1.20 a bottle at all druggists.

## EXPLAINS HOW LEAGUE VOTES.

Justice Sloane Says Article is not Understood.

Shows How the Council and Assembly Function.

Asserts England's Position no Better than Ours.

BY JUSTICE W. A. SLOANE, Division Two, Second District Court of Appeal.

There is one phase of the League of Nations discussion regarding Great Britain's alleged six-to-one vote, which, so far as I have observed, has not been made clear. This is with regard to the power given to the Assembly in passing upon questions of international dispute.

The impression has been given by enemies of the league, and accepted by many of its friends, that the Assembly may decide any such question submitted to it by the council by a majority vote. On the other hand, we hear it contended that the assembly has no power of affirmative action at all, independent of the vote of the council, or that if it has such power the vote must be unanimous. Neither position is quite correct.

Under Article XV of the covenant the council may refer any such dispute to the assembly, and must do so at the request of either party. Article XV further provides that in all matters so referred the assembly shall have the same powers as the council, and "that a report made by the assembly, if concurred in by the representatives of those members of the league represented on the council, and a majority of the other members of the league, exclusive in each case of the representatives of the parties to the dispute, shall have the same force as a report by the council."

### HOW IT WORKS.

It will be observed that this provision does not permit the adoption of such report by a majority of the assembly, but requires first a unanimous vote of the representatives of the nations, which have a vote on the council, together with a majority vote of all the other nations of the league represented in the assembly.

It will thus be seen that while the assembly has power to take final action without a unanimous vote, it would be more difficult to pass any measure against the United States, or any other country, for that matter, in the assembly, whether Great Britain, through its colonies, had six or sixteen votes in that body, than it would to pass it through the council alone, where Great Britain has but one vote. To pass a measure by the council it is made necessary to secure the concurrence of all members voting; while in the assembly it is not only necessary to have the concurrence of all the nations represented in the council, but in addition a majority of all other nations of the league.

As doubtless everybody knows by this time, the voting power of the League of Nations is vested in a council and an assembly. The council consists of one representative each from the United States, Great Britain, France, Italy and Japan, and for the present, and until by a unanimous vote of the league members a change is made, from Belgium, Brazil, Greece and Spain. The assembly is made up of one vote each from every nation or state belonging to the league. This includes the five British provinces, with one vote each.

**MUST BE UNANIMOUS.** In all matters where not otherwise expressly provided by the covenant, in order to adopt any measure, whether in the council or the assembly, the vote must be unanimous. And the only exception to this, so far as affects any international rights or responsibility, is this matter of disputes between nations when referred to the assembly by the council, in which action may be taken by concurrence of all the council nations, supplemented by a majority of all the other nations of the league. In a dispute to which the United States is a party, or between any two nations, neither of the disputing nations can vote. But in no event could anything be "put over" on this country unless we were without one single friend among all of these leading nations of the earth, whose representatives make up the league council.

In other words, the nations other than the nine represented on the council, whether they be few or many, have only a limited power. They can veto by a majority vote the action of the council nations, and they can affirm by a majority vote a measure already approved by the council nations; but they cannot, no matter how large their majority, put through a decision not unanimously concurred in by the council nations.

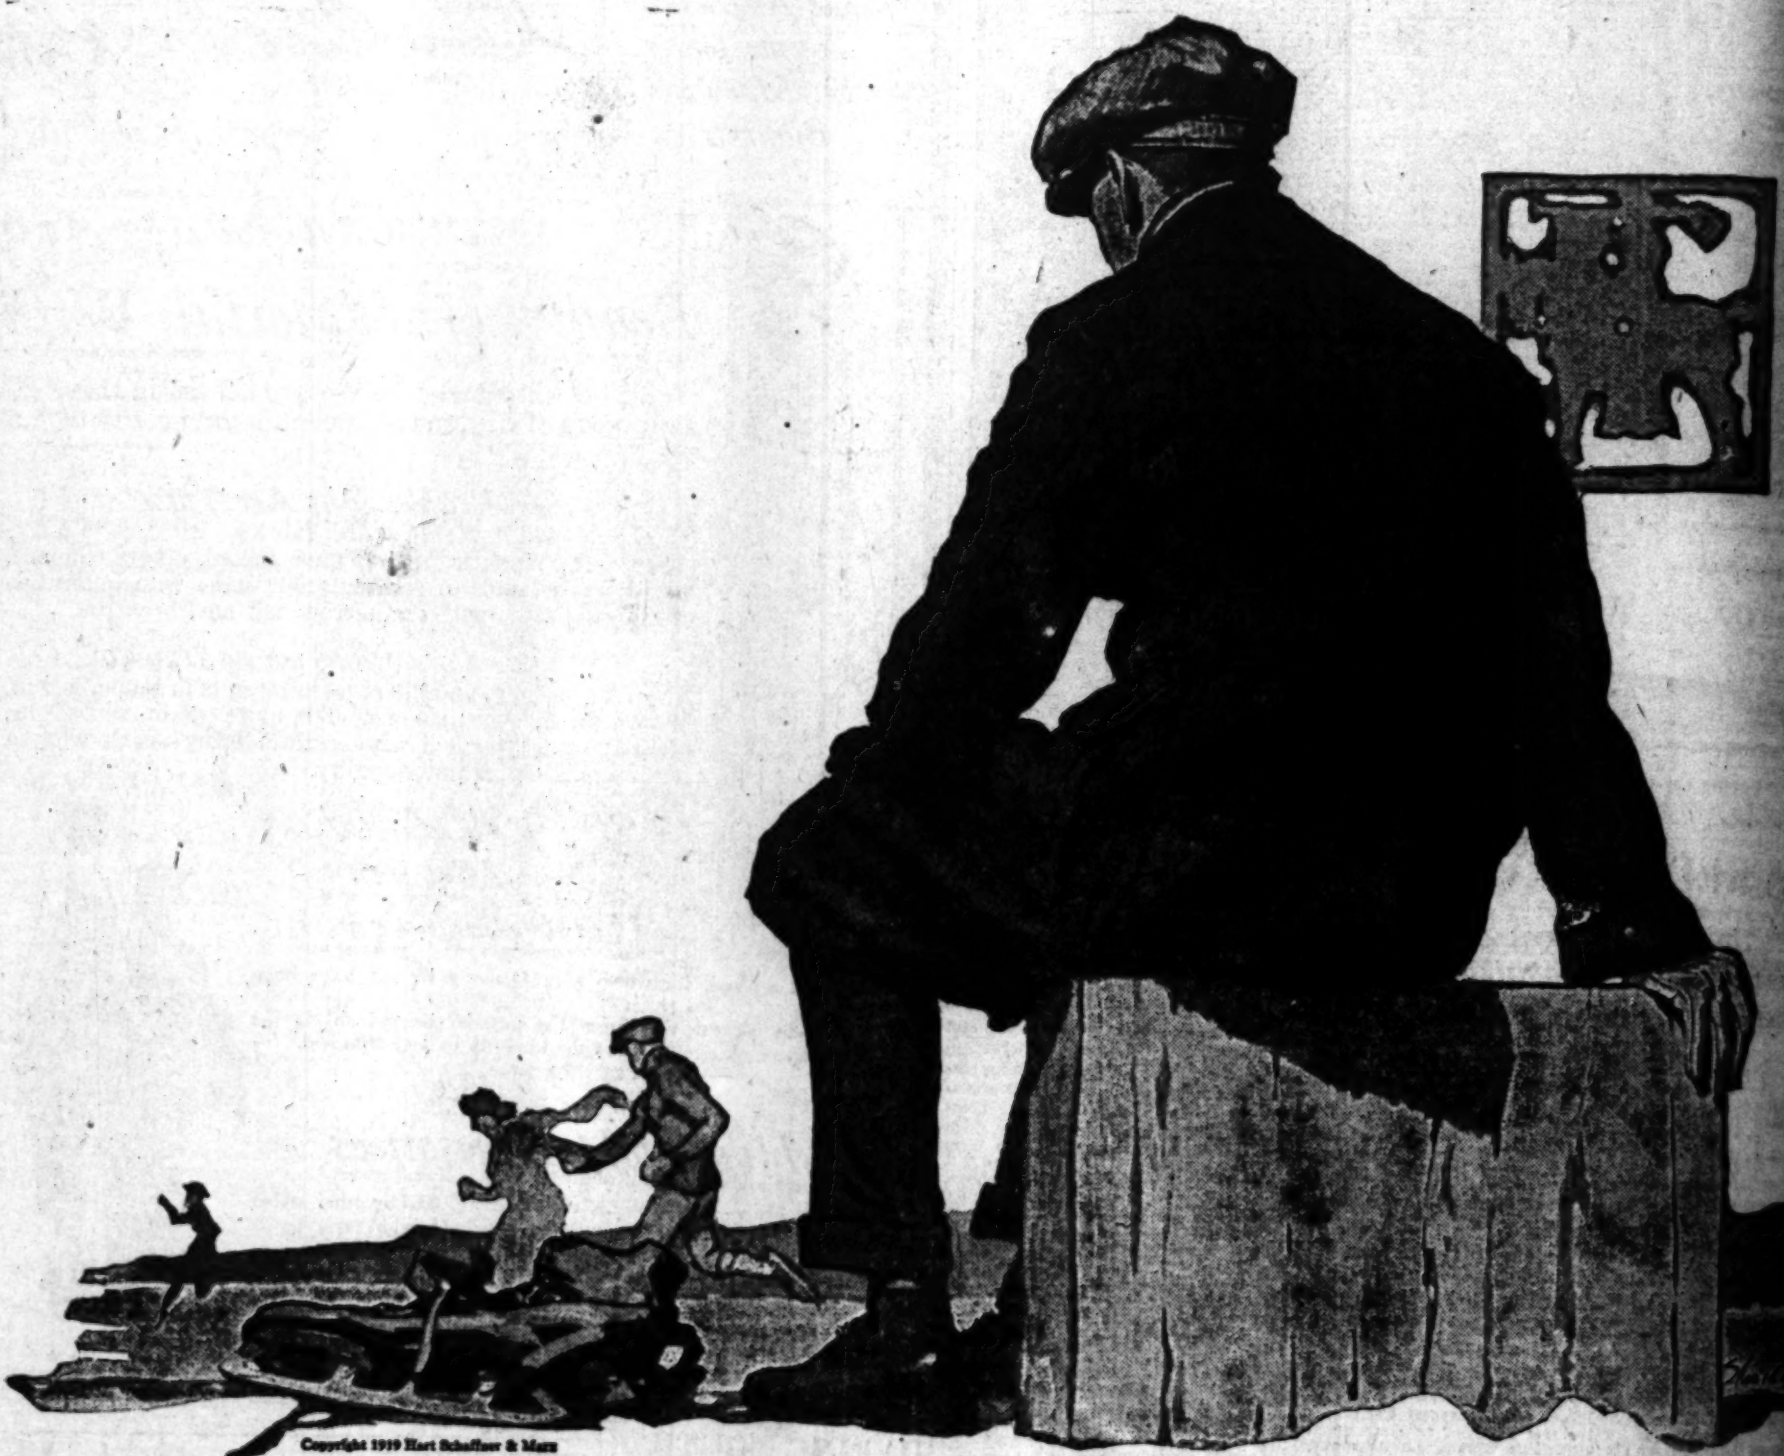

It is, therefore, very apparent that the votes of Canada, Australia, South Africa, New South Wales and India, even conceding that Great Britain could control them in any state, could not be instrumental in putting through any measure not approved by the council, in which body Great Britain and the United States stand on an equal footing.

## BLAME FOR DAMAGE TO COTTON GENERAL.

(BY A. P. NIGHT WIRE.) NEW ORLEANS, Oct. 14.—Every group of persons engaged in the cotton industry from the planter to the weaver came in for blame today at the World Cotton Conference here for damage sustained by cotton in its progress from the field to the loom.

The planter, the railroad, spinners, factors and ginners were said by various speakers to be responsible for the great loss suffered by the industry each year because of damaged cotton. Members of the British delegation asserted American bales were blunders in wrapping and compressing and were the cause of heavy losses in shipping.

**Bellingham Strikers Back.** (BY A. P. NIGHT WIRE.) BELLINGHAM (Wash.) Oct. 14.—Approximately 270 of the 285 men who struck October 1 at the shipyards plant of the Pacific American Fisheries Company here returned to work today at the old wage scale.

# Now economize on an overcoat

**YOU'LL** have to pay a pretty good price for an overcoat this fall. Better not try to "beat the market;" prices for overcoats are all about alike; but all overcoats are not.

Just remember that the economy is in the overcoat that you get, not in the price. Get all-wool fabrics, good

tailoring, fine linings, good style, and you'll save money. Our clothes are made that way; guaranteed to satisfy you; money back if they don't.

Go to the clothing store where our goods are sold; you'll get full value for your money; the fine quality that economizes for you.

## The stylish ideas in overcoats

The big, roomy, ulster-like coats are popular—particularly the double-breasted models; they have big adjustable collars, some of fur; they have belts, big warm pockets; many of them are made of the new, warm, fleecy, Winter-moor fabrics.

# Hart Schaffner & Marx

The quality in every Hart Schaffner & Marx overcoat we have here is as high as the price. Satisfaction guaranteed.
